PRÆMONITIO NOVI EDITORIS

DE ULTIMO HORATHI VOLUMINE.

IN primi voluminis præfatione (p. viii) promiseram me in tertio hoc et ultimo volumine daturum laborum meorum ad elucidanda Horatii carmina susceptorum enarrationem, et nomina præcipuorum interpretum ac sociorum quos adjutores operis adhibueram. Fidem jam exsolvit secundi voluminis præmonitio. De aliis autem pollicitis superest, ut me non vanum promissorem, vel, ut ait Cicero, *lentum infitiatorem* ostendam.

Itaque hoc volumen complectitur,

1° Vitam Q. Horatii Flacci e Suetonio et aliis scriptoribus desumptam, ac per consulum annos accurate digestam, indicantemque quibus annis carmina singula componi probabiliter debuerint; pag. 1 sqq.

2° Notam de amicis Q. Horatii, pag. 25; et duas odas recenter (1760) editas, quamvis perperam nostro poetæ adscriptas, p. 27.

3° Varia veterum et recentiorum de Q. Horatio testimonia et iudicia, pag. 29 sqq.

4° Notitiam literariam, e Fabricio et Ernestio desumptam, pag. 44 sqq.

5° Elenehum codicum MSS. ad quos Horatius adhuc exactus est, pag. 59 sqq.

6° De Horatii editionibus, pag. 101 sqq.

7° De Horatii versionibus Italicis, Gallicis, Anglicis, Hispanicis et Lusitanis, Græcis, Polonicis, Germanicis, Belgicis, Danicis et Russicis, pag. 244, sqq.

Jam din est ex quo catalogus hie editionum typis mandatus exiit; tribus enim vel quatuor abhinc annis huic conficiendo volumini indesinenter ineubimus. Interim plures jam Horatii edi-

tiones versionesve in lucem prodierunt, quas non uno doctrinæ et ingenii genere præstantes hic memorare juvat.

1^o Horatius, cum scholiis et adnotationibus. Braunhard, Lips 1831, in-8^o maj.

2^o *Versions gallicæ*, Horace traduit en prose par Goubaux et Barbet, Paris, 1828. — par J. F. Stiévenart, Paris, 1828. — Traduction en vers par Ragon, Paris, 1831. — par le général Delort, Arbois, 1831.

3^o *Versiones germanicæ*, Horatii Satiræ, übers. von Dr. C. Kirchner, Stralsund, 1829, in-4^o. — Epistolæ, von Rector Dr. Fr. v. P. Hocheder, Regensburg, 1830, in-12, maj. — Prima Satira, von J. H. Voss, F. A. Wolff und C. Kirchner, Frankfurt, 1830, in-8^o. — Odeæ cum notis, vom Verfasser des deutschen Verbauss, Berlin, 1831, in-8^o maj.

Volumen claudit Index Universus, qui nomina, res et verba uno eodemque tenore complectitur, ut nuntiarimus in primi voluminis præfatione, p. viii.

Ea sunt, lector benevole, quæ de mea ad absolvendam hanc Horatii editionem diligentia te monitum volui. Quæ ut tibi grata sint et accepta vehementer opto atque expeto; neque totum laborem nimio damnes fastidio, si qua occurrant peccata quibus obnoxia est humana fragilitas. Vale.

Q. HORATII FLACCI VITA

AUCTORE

C. SUETONIO TRANQUILLO¹.

Q. Horatius Flaccus, Venusinus, patre, ut ipse quidem tradit, libertino² et exauctionum coactore, (ut vero creditum est, salsamentario, quum illi quidam exprobrasset in

1. Suetonium Tranquillum constat libellum scripsisse de poetis, quo eorum vitas complecteretur; v. Isid. Orig. VIII, 7. Ex eo servarunt viri docti vitas Lucani, Terentii, cet. Jam in codicibus antiquis reperia est vita Horatii, quae diserto tribueretur Suetonio. Eam primus P. Nannius e cod. Bualidiano Miscellaneorum suorum libri III, c. 4 inseruerat. Deinde e cod. Bland. antiquiss. a Bernardino Lauredano acceptam Muretus editioni suae a. 1555 praelixerat, sibi quoque primus edere perperam visus erat. Post et Craqu. ex eodem cod. edidit. Mendosissima initio erat, sed viri docti post e vetustis MSS et conjectura pleraque emendarunt, imprimis Rutgersius, Gronovius, Casanbonus, Vossius. Sed essetne ea vita omnino Suetonii, necne, dubitatum est. Qui istud defendunt, urgent fere similitudinem dictionis cum stilo Suetonii. Quae licet negari nequeat; tamen admodum infirmum e tali similitudine argumentum est. Illud autem gravius, quod Porphyrio ad Epist. II, 4 pr. scribit: « Apparet, hunc librum hortatu Caesaris scriptum esse. Cuius rei etiam

Suetonius auctor est. Nam apud eum epistola invenitur Augusti, increpantis Horatium, quod non ad se quoque plurima scribat. » Hoc inquam plus momenti habet; quanquam et, si durior sis, dicere possis, non ideo necesse esse, ut haec, quam bodie habemus, Horatii vita a Suetonio sit, nam posse nihilo secius grammaticam seriores ejus auctorem esse, et modo illud de Augusto e Suetonio sumpsisse. Sed vel sic facile inducimur ad rectissimum de hac vita judicium: esse eam omnino a Suetonio, sed grammaticos et librarios monachos, qui illam transcriberent, vel omisisse, in suo quemque exemplo, quaedam, vel alia de suis interpolasse; quod ultimum de infami illo loco de speculato cubiculo certissimum est. Ceterum Porphyriorem etiam vitam Horatii scripsisse, ipse testatur ad Serm. I, 6, 41.

2. *Libertino*, vid. Serm. I, 6, 48 *quidem* deest in quibusdam editis; elegantius adest in MSS. Pro *exauctionum*, quod vulgo legitur, praecclare emend. Gesn. *exauctionum* h. finitarum a. peractarum auctionum i. venditionum publicarum; in quibus et

Mæcenas quanto-

Sed multo magis, extremis⁵ judiciis, tali ad Augustum elogio: « Horatii Flacci, ut mei, esto memor. »

Augustus epistolarum quoque ei officium obtulit, ut hoc ad Mæcenatem scripto significat: « Ante ipse sufficebam scribendis epistolis amicorum; nunc occupatissimus et infirmus, Horatium nostrum te cupio adducere⁶. Veniet igitur ab ista parasitica mensa ad hanc regiam, et nos in epistolis scribendis adjuvabit. »

Ac ne recusanti quidem aut succensuit quidquam, aut amicitiam suam ingerere⁷ desiit. Exstant epistolæ, e quibus argumenti gratia pauca subjeci. « Sume tibi aliquid juris apud me, tanquam si convictor mihi fueris: quoniam id usus mihi tecum esse volui, si per valetudinem tuam fieri potuisset⁸. » Et rursus⁹: « Tui qualem habeam memoriam,

hic recte legitur, quod comparanti varietates allatas facile patebit; tum et gravior existit structura ejecto *me*. *Ninnium* possis explicare parvum mulum, alias hinnum s. ginnum, item ninnum dictum. Sed mihi elegantior videtur locus, si suspiceris, esse nomen hominis vulgaris, nobis nunc ignoti, tunc a macritudine notissimi. Nam et Ninniam Campanam gentem fuisse apparet e liv. XXIII, 8 et ingeniosus tunc insus est in epitheto *strigosus*, quod proprie de jumentis dicitur. Volo, ut, qui nunc, instar tui, bene curatus et pinguis sum (is enim fuisse videtur), strigosior flam Ninnio.

Livia dicatur. Male. — *Elogio* vult Gesn. Sed bene habet *elogium*, testamentis proprium vocabulum (v. Gesn. thes. v. *Elogium* n. 8); h. l. brevem commendationem significat.

6. *A te cupio adducere* Bentl. nescio unde. — *Parasitica mensa*, h. qua ut parasitus fruitur, np. apud te, cui nulla officia præstat. — *Regiam mensam* ferre non potest Rutgers. quia ap. Romanos regis nomen invidiam habuerit. Sed nihil vetabat ad amicum sic scribere, imprimis per jocum.

7. *Suggestere* ap. Cruqu. et vulgo; sed *ingerere* cod. reg. Rutg. et Muret. destitit Gesn. Sivr.

8. *Fieri possit* vel *posset*, vulgo legitur, sed sensus requirit *potuisset*, uti mox pro *habeo* legi jubet latinitas *habeam*.

9. Illa transeuhdi formula *et rursus* aperte a monacho est, ex noto καὶ πάλιν in sacris litteris. Equidem omnia illa: *Exstant epistolæ* — ἀποστει-

poteris ex Septimio¹⁰ quoque nostro audire; nam incidit, ut illo coram fieret a me tui mentio. Neque enim, si tu superbus amicitiam nostram sprevisi, ideo nos quoque ἀνθυπεφρονούμεν. »

Præterea sæpe eum, inter alios jocos, *putissimum*¹¹ *penem* et *homuncionem* *lepidissimum* appellavit, unaque et altera liberalitate locupletavit. Scripta quidem ejus usque adeo probavit, mansuraque perpetuo¹² opinatus est, ut non modo sæculare carmen componendum injunxerit, sed et Viudelicam victoriam Tiberii Drusique priviguorum suorum; eumque coegerit, propter hoc, tribus carminum libris ex longo intervallo quartum addere: post sermones vero lectos quosdam nullam sui mentionem habitam ita sit questus: « Irasci¹³ me tibi scito, quod non in plerisque ejusmodi scriptis mecum potissimum loquaris. An vereris, ne apud posteros infame tibi sit, quod videaris familiaris nobis esse? » Expressitque eclogam cujus initium est:

Quum tot sustineas et tanta negotia solus,
Res Italas armis tuteris, moribus ornes,
Legibus emendes: in publica commoda peccem,
Si longo sermone morer tua tempora, Cæsar:

εφρονούμεν, emblema e margine esse puto, at ex antiquo tamen alio scriptore sumptis ipsis epistolarum fragmentis; quæ profecto non ab inepto grammatico, sed genuina esse, facile est sentire.

10. *Septimius* est ille, ad quem est Carm. II, 6 et de quo loquitur Epist. I, 3 et 9. — Ἀνθυπεφρονούμεν, vicissim superbi sumus: sic Cruqu. Muret. Rutg. Minus bene alii post Nannium ἀνθυπεφρονούμεν.

11. *Putissimum*, antiquæ pro *putissimum*, quod ipsam alii exhibent. *Penem* vulgo, et per jocum familia-

rem, simpliciter pro homine, vel, quod statim sequitur, homuncione, Roman dictum fuisse puto, ut *cunnius* simpl. pro femina dicebatur; ut *putissimus* p. sit homo integerrimus et carissimus, nil amplius. *Appellavit*, sic legendum; vulgo *appellat*. — *Una atque altera* male Dacer. explicat *duabus*, et in eo se torquet.

12. Post *perpetuo* in Blandin. cod. lacuna erat, quam explent fere *credidit*; sed Rutg. e cod. reg. *opinatus est*. — *Viudelicam* v. Est carm. IV, 4 et 14.

13. *Iratum* quidem editi, itema mox

Habitu corporis brevis fuit atque obesus, qualis et a semet ipso in satiris¹⁴ describitur, et ab Augusto hae epistola: «Pertulit ad me Dionysius¹⁵ libellum tuum, quem ego, ne accusem brevitatem, quantuluscumque est, boni consulo. Vereri autem mihi videris, ne majores libelli tui sint, quam ipse es. Sed si tibi statura deest¹⁶, corpusculum

pro *Eclogam* male *elogium*. Est epistola libri II prima. *Eclogas* enim antiqui omnis generis poemata breviora dicebant, non solum, ut vulgo, idyllia.

14. *In satiris*, ap. Serm. II, 3, 308. Huc etiam pertinet Epist. I, 4 extr. E margine suspicor esse hoc *in satiris*, nam recentiorum satirarum appellationem esse videbimus.

15. *Dionysius* haud dubie servus, vel libertus Augusti. Pro *ne accusem brevitatem* liber Put. habebat *accusarem*; regis, ut *accusantem*, unde Benth. *ut te accusem*. Male omnia. Regius codex videtur cum lacuna habuisse *ne accis.....atem*.

16. Codex regius cum lacuna exhibebat: «Sed si tibi statura deest..... unde est.» Et sic Benth. Unde Casaub. conj. *venter abunde est*. Facile apparet, perisse *corpusculum* et litteram primam ex non. — *In sextariolo* (quae est mensura antiqua et aridorum, et liquidorum, sexta congii pars) scribere vel prudenter negligunt Intpp. vel putant, iuberi Horatium in sextariolum, tanquam in museum irrepere; quo joco nihil posset frigidius excogitari. Rectissime unus Gesnerus rem expedit; Constat, Veteres volumina sua super bacillo, vel longiori, vel breviori, convolvisse. Jam sextariolus admodum brevis sen humilis fuerit oportet, vel axiam superante

diametro. Itaque humanissimo joco Augustus brevitatem libri Horatii, cujus lectione non satius esset, accusat. Si vis, libros tuos te ipso non majores esse, cogites, tibi licet non longum, at crassum corpus esse; et sic licet, bacillo brevissimo, per me vel sextariolo, involvas scripta tua, cum, h. dummodo, quod longitudini deest, ut in te, circuitu compensetur, — ὅπως διέτατος, quam crassissimus. Mire corrupta est haec vox, in editis quoque; e. g. ἐκάλυπτατος, ἐκπάλυπτατος cet. Sed non dissimulandum, h. l. in vita Horatii ap. Nannium Crucium, Muretum, et vulgo, sequi locum inhonestissimum, qui torporem maculam tanto viro adperserit: «Ad res veneras intemperantior traditur; nam speculato cubiculo scorta dicitur habuisse (sic) disposita, ut, quocumque respexisset, ibi ei imago coitus referretur.» In quibus etiamsi forte a latinitate ferri possint *speculatum cubiculum* et *disponere scorta*; at narratio ipsa ita absurda et ἀπίστατος, ita aperte e Seneca (Natur. Quaest. I, 16) de Hostio quodam, dissolutae nequitiae domine, narratione, permutato nomine ducta, ut nullum esse dubium possit, quin ab inepto grammatico ille pannus interpolatus sit. Doctissime inpr. III. Lessing. Opp. t. III, p. 1130 eum rescuit. Tacite Dacer. et Baxterus omiserunt.

non deest. Itaque licebit in sextariolo scribas, quum circuitus voluminis tui sit *ὁ γινώσκων*, sicut est ventriculi tui. »

Vixit plurimum in secessu ruris sui Sabini¹⁷ aut Tiburtini, domusque ejus ostenditur circa Tiburni luculum. Venerunt in manus meas et elegi sub ejus titulo, et epistola prosa oratione, quasi commendantis se Mæcenati. Sed utraque falsa¹⁸ puto. Nam elegi vulgares, epistola obscura; quo vitio minime tenebatur. Natus est VI Idus Decembris, L. Cotta et L. Torquato Coss. Decessit V Kal. Decemb. C. Marcio Censorino et C. Asinio Gallo Coss. post nonum¹⁹ et quinquagesimum annum, hærede Augusto palam nuncupato, quum urgente vi valetudinis non sufficeret ad obsignandas testamenti tabulas. Humatus et conditus est extremis Esquilis juxta Mæcenatis tumulum.

17. Ex illis : « Sabini aut Tiburtini » male quidam (Valart. etiam) duo prædia Horatii efflunxerunt; quod vel ex carm. II, 18, 14 refellitur. Recte vidit Rutgers. prædium Horatii ita in confiniis agri Sabini et Tiburtini situm putandum, ut dubium esset, utro pertineret. Talis erat et Catulli fundus, c. XLII quem hinc male quidam eundem fuisse cum Horatiano putarunt. Sed ille haud dubie propior Tiburi fuit. — De Tiburni luculo vid. carm. I, 7, 13.

VITA HORATII

IN EODEM COD. ALITER DESCRIPTA¹.

Q. Horatius Flaccus, libertino patre natus in Apulia, cum parente in Sabinos commigravit². Quem quum pater puerum Romam misisset in ludum litterarium, pareissimis eruditus impensis, angustias patris vicit ingenio; eoluitque adolescens Brutum, sub quo tribunus militum, civili bello, militavit, captusque a Cæsare, post multum tempus, beneficio Mæcenatis non solum servatus, sed etiam in amicitiam receptus est. Quapropter Mæcenati et Augusto in omnibus scriptis suis venerabiliter assurgit. Seripsit autem Carminum libros IV, Epodon I, Carmen sæculare, Sermonum libros II, Epistolarum II, de Arte poetica I³. Commentati sunt in illum Porphyryon, Modestus, Helenius Aeron; omnium autem optime Acron⁴.

VITA HORATII

IN TRIBUS CODD. BLANDD. ALITER DESCRIPTA.

Q. Horatius Flaccus, præcone patre natus, libertina conditionis, Venusinus fuit, quæ civitas Apuliæ est. Non tamen aut opibus vilis, aut studio; nam litteris liberaliter eruditus pro ingenii dexteritate in tantum jam a pucro eminebat, ut ultra meritum natalium talibus disciplinis faceret se aptum videri. Hic, post studia Romana, philosophiæ caussa Athenas profectus, inter Epicureos primum locum tenuit. Familiaritatem etiam M. Bruti adeptus est, ejus, qui cum Augusto dimicavit; nam et tribunus militum

ejus fuit; post victoriam vero civilis belli, interuentu Mæcenatis, Horatio Caesar indulsit. Fuit autem idem Horatius statura brevis, lippus, obeso corpore, iracundus, obscenis moribus, ita ut cubiculo speculato uteretur, quo se congregiuntem videret. Natus VI Id. Decemb. Cotta et Torquato Coss. Septuagesimo¹ septimo ætatis anno periit, hærede Augusto, sepultus in Esquilis, juxta tumulum Mæcenatis. In opere suo Alcæum imitatus est et Sapphonem, in satira Lucilium.

ante C. 65. Horatii 1.

His Coss. natum esse Horatium, non solum Suetonius auctor est, sed ipse etiam Flaccus, Carm. III, 21, 1; V, 13, 7. Decembrem mensem ipse etiam natalibus suis assignat Epist. I, 20. extr. illiusque diem VI Id. memorat Suetonius.

Generis sui obscuritatem numquam dissimulat, semper ultro fassus, se nec ingenuo, nec claro natum patre, sed libertino, vita tamen et pectore puro: Serm. I, 6, 45. *Libertinus* autem eo tempore idem erat ac *libertus*; quum superioribus sæculis libertini dicerentur filii libertorum s. manumissorum. Vide vel Sueton. Claud. 24. Hinc Horatius ex suæ ætatis more *ingenuus* erat, parens ejus non item. v. Serm. I, 6, 8 et 20. Cf. Massoni vit. Hor. p. sqq. et Wieland. ad Serm. I, 6, 8. Oportet tamen Flaccum, patre jam libertate donato, natum esse; alias enim non fuisset ingenuus.

Patrem, ejus nomen ignoratur, postquam, ut dicemus, Roman concesserat, *coactorem* fuisse, constat et ex ejus vita, et e Sermon. I, 6, 85. Id ad vectigalia forte referunt, quæ coegerit pro publicanis. Sed vid. not. ad vit. Horat. § 1. Salsamentarium fuisse, ut in vita Hor. dicitur, Torrentius non vult credere, quia ipse id non commemorarit. Sed hoc certe infirmum. Patria erat *Venusia*, vel, ut alii, *Venusiam*, Dauniorum colonia (Plin. III, 11; Strab. VI, p. 195), anno U. C. CCCCLXII deducta (Vellei. I, 14), oppidum non ignobile, *ἐντελέχεια* dictum Polybio, III, 90, in confinio Apulorum et Lucanorum ita situm; ut anceps esset, utro potius pertineret; v. Sermon. I, 2, 34; Cf. Heins. advv. p. 490. Proximus erat Vultur mons, at in Peucetia, altera Apulie parte; v. Carm. III, 4, 9 sqq. In ea regione agellum parvum habuisse patrem Horatii, constat ex Sermon. I, 6, 71. Pater Horatii, ingenui et generosi vir animi, quum in filio elegans ingenium animadverteret, omnem curam in illius educatione posuit, et quidquid ex facultatibus exiguis posset, benigne in eam impendit. Agello enim suo, quem Venusii habebat, relicto (nam vendidisse eum, temere poni arbitror, multoque probabilius videtur, Horatium demum, Bruti partes secutum proscriptione post praelium Philippense amisisse. Idibus Martiis Cæsar in curia Romana occiditur. Sequuntur ejus mortem varia prodigia, et historicis, et poetis celebrata. Itaque Carmen I, 2, ad hunc a. refert interpretum multitudo. Sed quis sibi persuadeat, Horatium, eo tempore partes Bruti amplexum, in Octavianum fecisse carmen tam splendidum? quod præterea tantum tamque exercitatum poetam prodat qualis profecto tunc nondum Flaccus fuit? Tum omnino, ut alia taceam, obstat appellatio *Principis* v. 50.

Brutus et Cassius, Italia cedentes, Athenas veniunt. Ibi Brutus clam bellum parat, juvenesque Romanos, Athenis studiorum causa versantes, sibi conjungit, in his Ciceronis filium. (Plut. Brut. 37; Dio XLVII, 21; Vellei. II, 62), et Horatium, ipso teste Epist. II, 2, 47, Carm. II, 7, pr.

Pompeium in Siciliam profugiant (Dio XLVII extr. Vellei. II, 72 et 76); Horatius hujus anni initio in Italiam redit, Magnam in hoc reditu tempestatem passus creditur ad Palinurum promontorium, et huc jam Scholiastes traxit Carm. III, 4, 28. Quod tamen non opus est, eum in isto reditu potius, quam alio tempore,

ibi periclitatum esse. Ad navim, qua redisset, Tanaquillus Faber et Daecius Carm. I, 14 traxere; parum acute; vid. argum. illius Carminis et a. 722.

Offendebat Horatius redux patrem se absente mortuum, neque relietum sibi habebat Larem, nec fundum paternum, quo triumvirali proseriptione excederat; quæ illi eo tristior sors fuerit oportet, quum comoda et splendida adeo fuisset vita superior. Itaque paupertas et obscuritas, in generoso animo ingenii artiumque nutrices, eum primum impulerunt, ut versus faceret (Epist. II, 11, 49 sqq.); non, quo inde panem quæreret, sed quo elucesceret ac sibi compararet patronos. Neque video, quomodo hoc illi opprobrio sit, quum constet, omni memoria in aliis etiam generibus sensu paupertatis magnos viros evasisse; magnaue ingenia, dum adversis rebus obnitantur, hoc ipso nisu in altum extolli. Fuerat in Horatio magnum ingenium poeticum, subactum Græcorum familiaritate; hoc suscitari primum tali impulsu oportebat. Quamquam eum, dum Athenis commoraretur, vel antea adeo, versuum scribendorum periculum jam fecisset Serm. I, 10, 31, haud absurde colligas. Post autem, quum in otio honeste beateque viveret, solius vel animi et gloriæ, vel publici usus gratia carmina fecit. Vitæ sustentandæ causa scriptum illum (s. quasi scribatum) quæstorium, quem Suetonius dicit, sibi comparasse videtur; ut esset in decuria scribarum, qui quæstori apparerent; vid. Wieland ad Serm. II, 6, 36. Sed sequenti tempore illud munus neglexisse eum, facile intelligitur. Cf. autem Serm. II, 6, 36. Illud vero hinc apparet, nulli superiorum annorum assignandum esse ullum carmen Horatii. Huic autem anno Massonus elegantî suspitione tribuit Serm. I, 7, quæ omnino ecloga juvenile prodit ingenium, neque inepte pro primo fœtu Horatiani ingenii haberi possit, quem quidem dignum lectu ipse habuerit.

Neque in Virgilio et Varii amicitiam ante hunc a. venire

potuit; neque forte hoc ipso venit. Item male huc refert Carmin. I, 2 Rodellius; quum arbitrari vix possimus, Horatium tunc jam tantum poetam fuisse, quantum hoc carmen arguit.

Horatium hoc anno V Kal. Dec. mortuum esse, et quidem subito, ut ne signare quidem testamentum posset, docet Sueton. in ejus vita; errore tamen in annorum Horatii numero admissio, dum LIX pro LVII ponit. Hieronym. Chron. Euseb. ad Olymp. 192, 5. *Horatius quinquagesimo septimo ætatis suæ anno Romæ moritur.*

Eodem anno inclinante, moritur Mæcenas, teste Dione LV, p. 552, et quidem ante Horatium; quod cur ex ejus vita, a Suetonio conscripta, intelligere pertinaciter noluerint Turnebus, Torrentius, Dousa, A. Schottus (Obs. II, 60), et Sanadonus, equidem non capio.

Villa Horatii ab ipso elegantissime pingitur Epist. I, 6, 5 sqq. Sita erat in Sabinis; non procul Tibure versus Aquilonem. Vicina erat Varia (Epist. I, 14, 3); item Mandela (Ep. I, 18, 105); proximum fanum Vacunæ (Ep. I, 10 extr.). Ager dicebatur Bandusia, fonte Bandusio (C. III, 13) insignis, unde ortus rivus Digentia (Epist. I, 18, 104), fundum Horatii suaviter irrigabat. Silvis et nemoribus amœnissima erat regio, in prunis versus antiquum templum Vacunæ (v. Plin. III, 12), et amplius versus Anicnem fl. et Tibur sequebatur lucus Tiburni. Nec deerant saxa, rupes, dumeta (Ep. I, 14, 19); ut maxime poetica regio dici posset. In convalle inter Lucretilem montem et Usticam, saxosum collem, a quo ipsa etiam vallis Usticia dicta, non procul fonte Bandusio (v. Scrm. II, 6, 2), villam ipsam positam fuisse probabile est. Eleganter erat ædificata de albo lapide Tiburtino. Habebat in ea Horatius villicum cum octo servis, et vivebant in agello quinque familiæ (Ep. I, 14, 3), unde satis lautum fundum fuisse intelligatur. Scripserunt plura de villa Horatii Cluver. ant. Ital. II, 9 sqq. et magno, forte nimio studio, *M. L. Capmartin de Chaupy in Découverte de la maison de campagne d'Horace, tomes III. Rome, 1767, 8.* Elegantior multo est *Dominici de Sanctis Dissertazione sopra la villa di Orazio Flacco. Tantum, tam bonum, tam elegantem virum quin amaret optimus et elegantissimus quisque, fieri non poterat. Canebat enim, plerumque jussus, illius victorias, populoque Romano commendabat ejus leges atque imperium; quæ omnes pulcherrimæ odæ esse solent. Omnium vero potentissimum amicum habuit *C. Cilnium Mæcenatem*, elegantissimi virum ingenii, doctorum hominum insignem patronum; cujus vitam accuratius descripsit *I. H. Meibomius* (L. B. 1653, 4^o). Sed præter hunc etiam *M. Agrippa*, *Asinius Pollio*, summi ac principes viri, singulari eum benevolentia complexi sunt. Ex poetis amicissimi fuerunt *Virgilius*, *Varius*, *Plotius* ac *Tibullus*. Sed habuit alios etiam, ad quos carmina scripsit, vel quorum in his mentionem fecit. Nos jam dicamus quædam de iis Horatii amicis, quos libri I et II gratia nosse interest; omissis tamen iis, qui vel satis illustres ac noti, vel contra obscuri, vel denique in argumentis carminum jam commemorati sunt.

L. Sestius, ad quem est C. I, 4, videtur esse is, quem, Bruti studiosissimum, Augustus a. U. 731, consulem in locum suum suffecit; v. Dio XLIII extr. Sed ante id tempus ode scripta videtur; unde male in titulo additur *consularem*: neque recte *Publius* dicitur, aut ostendi potest, utrum, quod in quibusdam MSS. est, cognomen *Quirini* verum sit. Male et ipse a multis scribitur *Sestius*, quod aperte est e corruptela græca Σέστιος.

L. Varius memoratur C. I, 6. Poeta epicus et tragicus nobilissimus, quem Virgilius Ecl. IX. 35; Mart. VIII, 18;

et h. l. ac Serm. I, 10, 44, Horatius impense laudat. Servavit ex eo fragmenta Macrob. VI, 1 et 2, quæ divinum ingenium prodant. Laudatur inprimis Thyestes, tragœdia, quam Quinctil. X, 1, cuilibet Græcarum comparat; et panegyricus in Augustum.

L. Munatius Plancus, ad quem est C. I, 7, cujus ad Cicronem, ac vicissim hujus ad illum epistolæ exstant, orator non ignobilis, civili bello, Antonio ad Mutinam fugato, cum Asinio Pollione se adjunxit. Pace facta, a. 711, cos. fuit, collega M. Lepido. Secutis bellis Antonio adhæsit, a quo ad Octavianum transfuga, magnis quidem honoribus functus, etiam censor, et (quod e numo docet Torrent.) urbi præfectus fuit; sed numquam Augusto fidem suam probari intellexit.

Varum (I, 18) Torrentius putat esse L. Quinctilium Varum, in Germania cæsum, contra temporum rationem. Vid. T. Fab. Epist. II, 46. Rectius intelligunt *L. Varum*, Epicureum, Cæsaris amicum, de quo Quinctil. X, 3. Vid. Masson. p. 222.

Aristius Fuscus (I, 22), grammaticus, poeta et orator non contemnendus, vir probus et jocosus, amicissimus Horatii. Vid. Serm. I, 9, 61. Est quoque ad eum Epist. I, 10.

Ælius Lamia (I, 26), vir splendidissimus ac doctissimus, rebus Cantabrico bello gestis clarus, et triumvir monetalis fuit. Antiquo et nobili genere ortus erat. Vid. ad III, 17.

Iccius (I, 29), cujus prænomen ignoratur, haud dubie filius M. Iccii, cujus meminit Cic. Phil. III, 10, qui, a. U. C. 710, Siciliam sorte obtinuit. Fuisse Noster creditur postea M. Agrippæ in Sicilia procurator; et est ad eum Epist. I, 12.

Q. Dellius (II, 3). Vix est turpis ille exoletus Antonii, de quo Dio passim, item Vellei. II, 84. Sed alius, historicus, quem a. U. 723, ad Augustum ab Antonio transfugisse narrat Plut. Anton. p. 937. Scribitur varie nomen, *Deil- lius*, *Duellius*, *Duillius*. Ex *Duellius* factum adeo *Bellius*, ut e duello bellum.

Septimius (II, 6) a *Porphyrione* dicitur fuisse eques Romanus, *Horatii* commilito, et priscus a pueritia amicus; quem *Epist.* I, 9, *Tiberio* commendat, qui eum a. 731 secum in Orientem duxit. Augusto cum carum et familiarem fuisse, vidimus in vita *Horatii*, auctore *Suetonio*.

Pompeius Grosphus (II, 7), quem primum suorum sodalium, veterem amicum vocat *Horatius*, fuit libertus, ut videtur, *Pompeii* magni, genere Græcus, qui, pace ad *Misenum* facta a. 715, Sex. *Pompeium* reliquit, et *Octaviano* adhesit, a quo, sive a *M. Agrippa*, terras amplas in *Sicilia* vel accepit, vel recepit olim possessas. Vid. *Sanad.* ad II, 16. (Apud ipsum, V. 4.)

T. Valgius Rufus, nobilis poeta epicus, quem *Tibull.* IV, 1, 180, æterno proximum *Homero* dicit. Cf. ibi *Broukhus*.

Postumum illum, ad quem est C. II, 14, *Dacerius* putat esse eundem cum *Julio Floro*, ad quem duæ sunt *Horatii* *epist.* et *elegia* *Propertii*, III, 12; sed docte ostendit *Sanadonus*, quam parum id recte statuatur. Non oportet, nisi comparare inter se characteres, ut agnoscas, neque *Julium Florum*, neque *Propertianum Postumum* cum *Horatiano* eundem esse.

Duæ odæ, quæ in *Cod. MS. Horatii bibliothecæ Palatinæ*, in *Vaticana*, repertæ feruntur, et nuper editæ sunt, non opus est, nisi eas legere, ut *Horatio* agnoscantur esse indignissimæ.

Préface de la traduction d'Horace.

Je suis persuadé que de tous les dons des muses, à tout prendre, j'excepte toujours Homère, les plus utiles ce sont les poésies d'Horace. C'est un grand poète, un grand philosophe, et un grand critique. Et dans toutes ces parties, on ne trouve jamais un auteur, on trouve un homme du monde qui en nous instruisant toujours, joue, badine, s'amuse toujours avec nous. Rien ne marque ni travail, ni peine, rien ne sent l'école; tout coule de source, tout est noble, tout est fleuri. Il est poète, même dans sa philosophie, malgré son style de conversation; il est philosophe dans sa poésie et dans sa critique, et partout règne toujours

une imagination heureuse et féconde, un jugement exquis et une solidité merveilleuse. On peut dire de sa poésie : *Corpus solidum et succi plenum*. De tous les poètes c'est l'unique qui seul puisse former un honnête homme et un galant homme : car c'est le seul qui enseigne tous les devoirs de la vie civile et qui apprenne à bien vivre avec soi-même, avec ses égaux, avec ses supérieurs. L'homme public, l'homme privé, le magistrat, le guerrier, les sujets, les rois, en un mot toutes les conditions, tous les âges y trouvent les préceptes les plus importants et les plus nécessaires pour leur état.

D'AGUESSEAU.

Quatrième instruction sur l'étude et les exercices qui peuvent préparer aux fonctions d'avocat du roi.

Je conseillerais à notre futur orateur de s'attacher presque continuellement à trois des poètes latins, et de les avoir continuellement entre les mains. Il devinera aisément que c'est de Térence, de Virgile et d'Horace. On peut dire qu'ils sont *pares magis quam similes*. Mais s'il fallait faire un choix dans ce qui est également parfait.... je donnerais la préférence à la lecture d'Horace, et surtout de ses Satires, de ses Épîtres, et de son Art poétique, qui donne des leçons aux orateurs mêmes, quoiqu'il ne paraisse fait que pour les poètes.

Je dirais volontiers d'Horace ce que Quintilien a dit de Cicéron : *Ille se profecisse sciat, cui Horatius valde placebit*. On y apprend non-seulement à bien parler, mais à bien penser; à juger sainement de ce qui doit plaire, ou déplaire dans ceux avec qui nous vivons; à avoir le sentiment vif et délicat sur les caractères, sur les bienséances et les devoirs de la vie civile, et à connaître ce qui peut former

l'honnête homme, l'homme aimable, dans le commerce de la société.

Toutes les vertus du style s'y réunissent en même temps : une justesse d'expression qui égale celle des pensées, un art à présenter des images toujours gracieuses et toujours traitées avec cette sobriété qui sait s'arrêter où il faut, et faire succéder de nouvelles beautés qui semblent suivre naturellement les premières et charmer l'esprit par leur variété, sans le fatiguer par leur multitude ou par leur confusion ; un choix dans les épithètes, qui ne sont jamais oisives, et qui ajoutent toujours ou plus de force, ou plus de grace aux termes qu'elles accompagnent ; une perfection dans les narrations, dont l'élégance et l'ornement ne diminuent point la simplicité et la rapidité. Enfin, on trouve en lui un maître toujours aimable, qui, comme il le dit lui-même, enseigne le vrai en riant, et dont le savant badinage semble jouer autour du cœur (c'est l'expression de Perse) pour y faire entrer plus agréablement ses préceptes. Mais en voilà trop sur le caractère de cet auteur : il faudrait être Horace lui-même pour en faire dignement le portrait ; et l'on profitera plus à le lire qu'à l'entendre louer.

ROLLIN.

Histoire ancienne, tome XI, pag. 90, Ed. de M. Letronne.

Les Satires et les Épîtres me paraissent d'un prix infini. Elles n'ont rien au dehors qui avertisse, rien qui frappe. C'est pour l'ordinaire une pure prose mise en vers et même dénuée de tout l'éclat et de toute la douceur de l'harmonie poétique. Ce n'est pas qu'Horace ne pût faire de très-beaux vers. L'endroit où il s'excuse sur son incapacité d'écrire les grandes actions d'Auguste ne montre-t-il pas combien il en était capable? Voy. Satir. 1, liv. II.

Y a-t-il dans aucun poète une description plus élégante, plus expressive, plus énergique, et qui peigne un fait avec des couleurs plus vives, que celle du repas que donne le rat de campagne au rat de ville? Voy. Sat. 6, liv. II.

Cette élégance, cet agrément, cette vivacité d'expressions et d'images ne se trouvent point (je dis pour l'ordinaire) ni dans les Satires, ni dans les Épîtres. Qu'est-ce donc qui en rend la lecture si intéressante? C'est la délicatesse, l'urbanité, la raillerie fine, la manière aisée qui y règnent : c'est un certain tour de naïveté, de simplicité, de vérité : c'est cette négligence même affectée dans la mesure des vers, laquelle contribue à donner un air plus naturel au discours, effet que produit dans notre langue le style marotique : c'est un fonds de raison, de bon sens, de jugement qui se fait sentir partout : c'est un art merveilleux de peindre le caractère des hommes et de mettre leurs défauts et leurs ridicules dans tout leur jour. Il faut qu'il y ait dans tout cela une grande beauté foncière et essentielle pour faire une si vive impression sur les esprits, sans le secours des graces, du nombre et de l'harmonie poétiques.

L'Art poétique, joint à quelques Satires et à quelques Épîtres qui roulent sur la même matière, renferment tout ce qu'il y a de plus essentiel pour les règles de la poésie. On peut regarder ce petit traité comme un excellent abrégé de rhétorique très propre à former le goût.

Cours de Rhétorique et de Belles-Lettres.

LEÇON XXXIX.

De tous les poètes anciens ou modernes qui ont fait des odes, il n'y en a point qui, pour la correction, l'harmonie, l'expression heureuse, puisse lutter avec Horace : il est des-

cendu des hauteurs où s'élève Pindare, dans des régions qui sont plus à notre portée, et a su unir à des pensées suivies et pleines de sens, les beautés les plus éclatantes de la poésie. Il quitte rarement cette région moyenne où j'ai dit que l'ode peut aussi se plaire : on peut même remarquer encore que celles de ses odes où il aspire au sublime ne sont pas au nombre des meilleures. Les qualités qui distinguent éminemment ce poète lyrique sont l'élégance et la grace : dans le genre de composition où ces qualités font le principal mérite, aucun poète n'approche plus de la perfection : aucun ne présente un sentiment moral avec plus de dignité, une idée gaie avec plus de légèreté, une plaisanterie d'une manière plus piquante ; son expression est si heureuse, que souvent d'un mot ou d'une épithète il fait un tableau : aussi Horace a-t-il toujours été et sera-t-il toujours l'auteur favori des gens de goût.

LEÇON XL.

De tous les poètes didactiques, Horace est celui qui, dans son *Art poétique*, a le plus négligé l'ordre et la méthode, comme on l'en a souvent accusé. C'est dans cet écrit, plus qu'en aucun autre, que ce poète se montre peu attentif à établir entre les parties de l'ouvrage une liaison régulière et suivie : il écrit toujours avec aisance et avec grace ; mais ses pensées sont trop détachées et semblent marcher au hasard. Toutefois cet *Art poétique* est plein de sens et de saine critique ; et si on l'envisage comme destiné à tracer les règles du drame romain, ce qui semble avoir été l'objet principal de l'auteur, on y découvrira un traité plus complet et plus régulier, que si l'on veut, suivant l'opinion commune, y trouver tout l'art de la poésie réduit en système.

VOLTAIRE.

Épître à Horace.

Je t'écris aujourd'hui, voluptueux Horace,
 A toi qui respiras la mollesse et la grace.
 Qui, facile en tes vers, et gai dans tes discours,
 Chantas les doux loisirs, les vins et les amours,
 Et qui connus si bien cette sagesse aimable
 Que n'eut point de Quinault le rival intraitable.

.
 Ce monde, tu le sais, est un mouvant tableau,
 Tantôt gai, tantôt triste, éternel et nouveau.
 L'empire des Romains finit par Augustule ;
 Aux horreurs de la Fronde a succédé la Bulle ;
 Tout passe, tout périt, hors ta gloire et ton nom :
 C'est là le sort heureux des enfans d'Apollon.
 Tes vers en tout pays sont cités d'âge en âge.
 Hélas ! je n'aurai point un pareil avantage.
 Notre langue un peu sèche et sans inversions.
 Peut-elle subjuguier les autres nations ?
 Nous avons la clarté, l'agrément, la justesse ;
 Mais égalerons-nous l'Italie et la Grèce ?
 Est-ce assez en effet d'une heureuse clarté,
 Et ne péchons-nous pas par l'uniformité ?
 Sur vingt tons différens tu sus monter ta lyre ;
 J'entends ta Lalagé, je vois son doux sourire ;
 Je n'ose te parler de ton Ligurinus,
 Mais j'aime ton Mécène et ris de Catius.
 Je vois de tes rivaux l'importune phalange
 Sous tes traits redoublés enfoncés dans la fange ;
 Que pouvaient contre toi ces serpens ténébreux ?
 Mécène et Pollion te défendaient contre eux.

Chassons loin de chez moi tous ces rats du Parnasse ;
 Jouissons, écrivons, vivons, mon cher Horace.
 J'ai déjà passé l'âge où ton grand protecteur,
 Ayant joué son rôle en excellent-acteur,
 Et sentant que la mort assiégeait sa vieillesse,
 Voulut qu'on l'applaudît lorsqu'il finit sa pièce.
 J'ai vécu plus que toi ; mes vers dureront moins ;
 Mais au bord du tombeau je mettrai tous mes soins
 A suivre les leçons de ta philosophie,
 A mépriser la mort en savourant la vie,
 A lire tes écrits pleins de grace et de sens,
 Comme on boit d'un vin vieux qui rajeunit les sens.
 Avec toi l'on apprend à souffrir l'indigence,
 A jouir sagement d'une honnête opulence,
 A vivre avec soi-même, à servir ses amis,
 A se moquer un peu de ses sots ennemis,
 A sortir d'une vie ou triste ou fortunée
 En rendant grace aux dieux de nous l'avoir donnée.

. ;

LA HARPE.

Réponse d'Horace à Voltaire.

J'ai moins écrit que toi, j'ai voulu moins de gloire ;
 J'arrivai moins brillant au temple de mémoire ;
 J'aimai les voluptés, les jeux et le loisir ;
 J'eus des momens d'étude et des jours de plaisir.
 Né sous un ciel heureux, j'en sentis l'influence ;
 J'abandonnai ma vie à la molle indolence,
 Et mon goût pour les arts, mes faciles talens,
 Variaient mon bonheur et servaient mes penchans.
 Je reçus Apollon comme on reçoit à table
 Un ami qui nous plaît, un convive agréable ;

Non comme un maître dur qui se fait obéir ;
Il vint charmer ma vie et non pas l'asservir.
Souvent à Tivoli, dans mon champêtre asile,
Où, sous le frais abri des bois de Lucrétile,
Quand j'attendais Glycère au déclin d'un beau jour,
Couché sur des carreaux disposés pour l'amour ;
Tandis que la vapeur des parfums d'Arabie
Pénétrait et mes sens et mon ame amollie ;
Qu'au loin, des instrumens l'accord mélodieux
Portait à mon oreille un bruit voluptueux ;
Alors, dans les transports d'un aimable délire,
Inspiré tout à coup, je demandais ma lyre,
Je chantais l'espérance et les doux souvenirs,
Le doux refus qui trompe et nourrit les desirs,
La piquante galté, la naïve tendresse.
Je vis dans l'art des vers, que nous apprit la Grèce,
Un langage enchanteur dans l'Olympe inventé,
Fait pour parler aux dieux ou bien à la beauté.
Quelquefois élevant ma voix et ma pensée,
Emule audacieux de Pindare et d'Alcée,
Je montai dans l'Olympe ouvert à mes accens ;
Ou, choqué des travers et des vices du temps,
J'exerçai sur les sots ma galté satirique :
J'esquissai même un jour un code poétique.
Mais la gloire et les arts ne bornaient point mes vœux ;
Le plaisir fut toujours le premier de mes dicux.
Octave, qui goûta mon heureux caractère,
M'offrit auprès de lui le rang de secrétaire.
Je refusai son offre ; il n'en fut point blessé.
Recueilli dans sa cour, à sa table placé,
Je ne lui voulus point assujétir ma vie :
Il aurait dérobé mes momens à Lydie,

A Philis, à Chloé, qui valaient mieux que lui :

L'esclavage bientôt eût amené l'ennui.

J'aimais beaucoup Octave, et plus l'indépendance.

LA HARPE.

Cours de Littérature, I^{re} partie, liv. I^{re}, ch. vii, sect. 2.

Horace est le seul des lyriques latins qui soit parvenu jusqu'à nous; mais ce qui peut nous consoler de la perte des autres, c'est le jugement de Quintilien, qui nous assure qu'ils ne méritaient pas d'être lus. Il fait au contraire le plus grand éloge d'Horace, et cet éloge a été confirmé dans tous les temps et chez tous les peuples. Horace semble réunir en lui Anacréon et Pindare; mais il ajoute à tous les deux. Il a l'enthousiasme et l'élévation du poète thébain; il n'est pas moins riche que lui en figures et en images: mais ses écarts sont un peu moins brusques; sa marche est un peu moins vague; sa diction a bien plus de nuances et de douceur. Pindare, qui chante toujours les mêmes sujets, n'a qu'un ton toujours le même. Horace les a tous; tous lui semblent naturels, et il a la perfection de tous. Qu'il prenne sa lyre; que, saisi de l'esprit poétique, il soit transporté dans le conseil des Dieux ou sur les ruines de Troie, sur la cime des Alpes ou près de Glycère, sa voix se monte toujours au sujet qui l'inspire. Il est majestueux dans l'Olympe, et charmant près de sa maîtresse. Il ne lui en coûte pas plus pour peindre avec des traits sublimes l'ame de Caton et de Régulus, que pour peindre avec des traits enchanteurs les caresses de Lycimnie et les coquetteries de Pyrrha. Aussi franchement voluptueux qu'Anacréon, aussi fidèle apôtre du plaisir il a les grâces de ce lyrique grec avec beaucoup

plus d'esprit et de philosophie, comme il a l'imagination de Pindare avec plus de morale et de pensées. Si l'on fait attention à la sagesse de ses idées, à la précision de son style, à l'harmonie de ses vers, à la variété de ses sujets; si l'on se souvient que ce même homme a fait des satires pleines de finesse, de raison et de galté; des épîtres qui contiennent les meilleures leçons de la société civile, en vers qui se gravent d'eux-mêmes dans la mémoire; un *Art poétique*, qui est le code éternel du bon goût, on conviendra qu'Horace est un des meilleurs esprits que la nature ait pris plaisir à former.

SCHOELL.

Histoire abrégée de la Littérature romaine, tome I, période III,
78 av. J.-C. — 14 après J.-C.

Pour estimer le caractère d'Horace, il suffit de lire sans prévention ses ouvrages, mais surtout ses Satires et ses Epîtres, où son ame s'est peinte tout entière. Elle était noble et généreuse. Sa philosophie était celle d'un homme aimable qui tolère les faiblesses des autres, et ne se refuse aucune jouissance que la vertu ne réprouve pas...

Ce qui fait le principal charme des épîtres d'Horace, c'est la variété qui règne dans les caractères des personnes auxquelles elles sont adressées, et d'après lesquelles le poète change et varie son ton et ses couleurs. En général les satires de ce poète sont plus piquantes que ses épîtres; mais celles-ci sont plus douces et plus agréables; la lecture

des premières égaie et amuse, celle des autres rend meilleur.

Horace doit être regardé comme le second des poètes romains. Il est, pour la poésie lyrique, ce que Virgile est pour l'épopée et pour le genre didactique; l'un et l'autre n'ont pas été égalés par les poètes des temps suivans. Mais si Virgile s'élève au-dessus de cette troupe de poètes épiques qui l'imitèrent, qui se parèrent de ses lambeaux, Horace paraît seul comme poète lyrique. La littérature latine ne lui en avait offert aucun à surpasser, et, parmi ses imitateurs, aucun ne fut seulement digne de lui être comparé.

Horace fit connaître aux Romains la poésie lyrique dans son dernier degré de perfection. Sans doute il montre, comme poète lyrique, moins d'originalité que dans ses satires; mais on est allé beaucoup trop loin lorsqu'on a voulu ne reconnaître dans ce beau génie que le caractère d'imitateur. Ce n'était certainement pas un petit mérite aux yeux de ses contemporains, que de reproduire dans une langue peu flexible les plus belles productions de la poésie grecque, et de les reproduire dans des rythmes dont la langue latine paraissait moins susceptible. Mais ce n'est pas le seul éloge que mérite Horace. Un grand nombre de ses odes, celles qui célèbrent Auguste et sa famille, celles qui tonnent contre les vices de son siècle, lui appartiennent en propre, et, à l'exception de quelques légers rapports, les critiques ont vainement tenté d'en découvrir les originaux ou les modèles, dans ce qui nous reste de la littérature grecque. Elles ont un caractère d'originalité et quelque chose de si particulier, qu'il est impossible de méconnaître qu'elles sont une création de l'imagination d'Horace, et qu'elles lui ont été inspirées par les objets qui l'entouraient et par les circonstances où il vivait. Ces odes sont regardées par tous les connaisseurs comme les plus

belles qu'il ait composées. Et lors même qu'Horace imite des modèles grecs, il sait se mettre à la place des poètes qu'il a devant les yeux; il donne à leurs idées et à leurs images quelque chose de romain qui en efface souvent le caractère primitif, et qui ne pouvait sortir que d'un génie assez heureux pour produire de lui-même. Dans toutes ses imitations, son jugement, son esprit, sa grace, le goût qu'il montre, font disparaître tout ce qui pouvait donner à ses compositions un air de copie.

Horace possède au suprême degré l'art d'intéresser et d'entraîner son lecteur; il sait ennoblir les objets les plus insignifiants; ses descriptions et ses comparaisons sont toujours courtes, mais en peu de traits elles achèvent le tableau qu'il veut mettre devant nos yeux. Son langage est pur, élégant, et le modèle de l'urbanité; sa versification est aussi harmonieuse dans le rythme lyrique que celle de Virgile est parfaite dans le mètre héroïque. La lecture d'Horace fera toujours le charme des hommes instruits et sensibles; elle plaira surtout à ceux que l'expérience du monde aura guéris des vaines passions qui tourmentent le commun des hommes.

Sans trop s'assujétir à l'art, à la méthode.

Sublime, familier, solide, enjoué, tendre,

Aisé, profond, naïf et fin,

Digne de l'univers, l'univers pour l'entendre

Aime à redevenir latin.

Horatii² carminum lectione delectati sunt duo Imperatores sapientissimi, Augustus et Severus. Est vero, in Odis præsertim, elaboratissimus, sublimis, suavis, emendatissimus, et in epithetis deligendis, ut Petronii verbo dicam, curiosa ejus felicitas : præcipuus in Satira, doctor in poetica arte unice audiendus : eximius philosophus in Epistolis. In carmine elegantiam et peritiam numerorum ei tribuit Ovidius; in argumentis sapientiam et calliditatem Persius; diligentiam elucubratam Juvenalis; sublimitatem auctor vetus, sed non nominatus; jucunditatem, gratiam, varietatem Quintilianus; sollertiam Apuleius; in sermone puritatem et nitorem idem Quintilianus : in Satiris cum esse emendatissimum Lactantius. Imitatus est in Odis potissimum cum Pindaro Alcæum et Sapphonem : epitheta sumsit ab Homero et Sophocle. In libro Epodon secutus est Archilochum, in Satiris Romanos illos Ennium et Lucilium. Sed Horatio³ nihil hoc in genere præstantius est, qui ut omnes vitæ rationes in Satiris suis complexus fuit, ita flosculos suppeditat, quibus mirum in modum ornare sermonem nostrum possumus. Ego certe Satiras ejus omnes memoriæ mandari velim, tum in vita ipsa, tum in sermone usui futuras. Elegantissima omnia sunt, dictio nitida, et, si numeros tollas,

sermoni soluto apta. Urbanitas in eo mira, sales candidi, ex abdito erutæ sententiæ, argutiæ non coactæ, meræ Charities, omni occasione aptæ. Summum in illo viro ingenium fuit, nec immerito Augusto et Mæcenati in deliciis, cujus genium satiricum nemo ex antiquis, nemo e recentioribus, ulla imitatione assecutus est. Jo. Caselius in *Nép* suo, Horatium vitæ magistrum commendans, « Affirmare non dubitem, *inquit*, qui in hoc poeta multum operæ posuerit, eumque ita perdidicerit, ut ejus versus non in ore natos aut extemporales, ut putatur, non memoria teneat (nec vero non sunt, qui hoc præstiterint), sed probe intellectos ad usus vitæ transferat: hunc posse rebus suis suorumque recte in omnibus aliquid boni consilii invenire: nec minus idem patriæ recte consulat, præsertim si et ad historiam se conferat, spectans id, quod potissimum ostendimus. » Bentleio in notis p. 64, Horatius dicitur *magnus novator*, quod ex Græcis in Latinam linguam felici audacia alia transtulit, alia, ut *male feriati* vocabulum, ipse primus effinxit. Confer Jac. Frid. Reimanni historiam vocabulorum Latine Linguae p. 43 seq. Alius Horatius, de quo Martialis IV, 2. Sed longe plures hoc nomine commemorat Jo. POEMATA.

Scripta Horatii ita recenset Sidonius Apollinaris Carmine IX, v. 218:

Non quod per Satiras, Epistolarum
Sermonumque sales, novumque Epodon,
Libros Carminis ac Poeticam artem
Phœbi laudibus et vagæ Dianæ
Conscriptis voluit sonare Flaccus.

Hæc universa Horatii hodie exstant :

Carminum sive Odarum libri IV, ad C. Cilnium Mæcenatem, licet primam Odam libri primi (uti non paucos Virgillii versus) pro spuria habuit Frane. Guyetus, doctus, sed nimis delicati fastidii Aristarchus. Librum quartum ex longo intervallo addere jussit Augustus, ut in vita Horatii Suetonius memoriæ prodidit.

Epodon liber unus, perinde ut libri carminum, vario genere versuum proodico et epodico scriptus, de quibus consulendus Aldi Manutii tractatus de XIX generibus metrorum Horatii.

Epodon libro subjeitur *Carmen seculare*, quod Horatio componendum injunxit Augustus anno U. C. 736, ætatis Horatii 40. Meminit auctor vitæ, et Sidonius innuit per *Phæbi laudes et vagæ Dianæ conscriptas*. Sunt, quibus carmen seculare videtur etiam lib. I Oda 21, et lib. IV Oda 6. Vide Petri Taffini lib. 1 de ludis secularibus cap. 16 et 17, in Tomo VIII thesauri Ant. Romanarum.

Sermonum libri IV ad eundem Mæcenatem, epico carmine conscripti; quorum duo priores complectuntur *Satiras* ¹ ab argumento, posteriores duo ad docendum et instruendum facti, *Epistolarum* vulgo veniunt nomine, quorum in altero Ethicum philosophum, in altero Criticum profitetur. Alter constat Epistolis viginti, alter vero tribus, una ad Augustum ² de Poetis, præcipue Romanis; secunda ad Julium Florum; tertia ad Pisones patrem et filios, a Charisio diserte

1. Nonnullas Satiras ante Carmina quedam, in Epodon libro scriptas ab Horatio esse disputat Sam. Petitus lib. I, Observavit. cap. IX.

2. Sueton. in Horatii vita: Post Sermones vero lectos quosdam, nullam sui mentionem factam ita est questus Augustus: Iratum me tibi scito, quod

non in plerisque ejusmodi scriptis mecum potissimum loquaris. An vereris, ne apud posteros infame tibi sit, quod videaris familiaris nobis esse? Expressitque eclogam, cujus initium est: Quum tot sustineas et tanta negotia solus, Res itales annis tuteris, etc.

Epistolæ nomine memorata, quæ vulgo, ut Sidonii etiam ætate factum, scjuncta a reliquis, Fabii auctoritate III, 8 Inst. Or. inscribitur *Liber de arte poetica*, in quem Porphyrio observat, Horatium conguessisse præcepta Neoptolemi Pariani de arte poetica, non quidem omnia, sed eminentissima. Hæc Epistola si cum duabus prioribus jungatur, mole et versuum numero fere æquabunt priorem Epistolarum librum, aut certe parum inter se uterque different, ut pridem notavit Dan. Heinsius. Horatii *Satirus* Fulvius Ursinus in Virgilio cum Græcis scriptoribus collato pag. 3, veteris Codicis Vaticanæ fidem secutus, *Eclogas* appellat. Sic quoque Craquius, haud improbane Barthio ad Statium T. I, p. 351. Liber Satirarum secundus Trebatio in quibusdam Codd. inscribitur. Compositæ sunt carmine epico, sed sermoni propiore, ut ipse lib. I, Sat. IV, 41 scribit :

. . . . Neque si quis scribat, uti nos,
Sermoni propiora, putes hunc esse poetam.

Ab his Satiris *mordacem* vocat Flaccum Sidonius : Petrus Blesensis subinde *Ethicum*, ut Epist. 150, et alibi. Quid ecloga, quid satira exigat, eleganter tradit Jo. Anton. Campanus lib. V, Epist. 24. Versus quatuor et quinquaginta ex Epistola ad Florum, a versu 87 ad 140, in alteram ad Augustum transferendos, non post v. 219, ut Dan. Heinsius, sed post 117 collocandos esse, singulari diss. in Acad. Inscriptionum Paris. a. 1702, 15 Nov. probatum ivit J. Boivinius. Versus octo in quibusdam Codd. et editionibus præfixi lib. I, Satir. X, et a Gyraldo dialog. IV de poetis, Guil. Cantero aliisque pro Horatianis habiti : *Lucili, quam sis mendosus teste Catone*, etc. tanquam spurii a Criticis rejiciuntur. Vide H. Stephanum, Lævinum Torrentium, alios. In libri secundi Epistola II transpositi versus a 87 ad 140, ut præter Dan. Heinsium in notis, Jo. Boivinius diss. in

memoriis literariis Trevoltinis a. 1703, Sept. p. 268 sqq. Salmasius in Solinum pag. 5, Horatii nomine laudat hunc versum :

Nulla dies abeat, quin linea ducta supersit.

sed non est Horatii, nec alterius veteris poetæ Latini, ut notatum Carolo Dati in vita Apellis pag. 107, bibl. Aprosiana pag. 273. Semonum libros, Horatii exemplo, præter alios scripsit Pet. Scholirius, eques et senator Antuerp. a. 1635 defunctus, quos commentariis etiam illustravit Albertus le Roy¹, Eremita Augustinianus, Herbipoli, 1683, 8.

Ars Poetica scripta ad Pisonem, patrem et filios : hos enim alloquitur versu 24,

. . . . Pater, et juvenes, patre digni.

Suetonius in vita testatur, venisse in manus suas et *Elegos* sub Horatii titulo, et *Epistolam* prosa oratione, quasi commendantis sc. Mæcenati. « Sed utraque, *inquit*, falsa puto. Nam elegi vulgares, epistola autem obscura, quo vitio minime tenebatur. » Auctor libri de Orthographia, qui Bedæ vulgo tribuitur, p. 2800 edit. Putschii : « Nonnulli veterum ipsa carmina soles nominare, sicut Horatius in principio cujusdam voluminis, quod ita exorsus est : » Soles meos omni Ecclesiæ (Barth. LII, 4, legit *Eclesiæ*) vestræ commendo. Et *Maro*: sæpe ego longos Cantando puerum memini me condere soles.

SCHOLIASTÆ VETERES.

Multos Grammaticos veteres interpretes nacta sunt Horatii Carmina, sed quorum ætas definiri non potest. Primo loco ponitur in edd. *Acron*, cui præfert interpretandi solertia *Porphyriionem* Vavassor de vi et usu verborum quorundam. Hænr. Stephanus testatur, in MS. *Pomponium*

Porphyriorem appellari. Ceterum sunt magis excerpta ex eorum commentariis, quam commentarii ipsi, iique etiam, ut in aliis quoque factum, interpolati ab iis, qui ista exerpserunt. Porphyrius quidem Scholia se longe pleniora habere scripsit. Emendationum L. I, c. 14, eaque se editurum promisit. Scholia autem Anonymi edidit primus Cruquius in sua Horatii editione. Ea similia ceteris judicat Barthius *Advers.* XLII, 22; nec magni faciebat T. Faber *Epp.* I, 2; II, 54 : habent tamen non pauca, quæ in ceteris Scholiis antiquis non reperiuntur, et tamen ad intelligendum Horatium utilia. Scholia inedita exstant in Bibl. Franequerana, teste Gutberletho de Saliis pag. 9. Grævius etiam in *Lect. Hesiod.* c. 17 affert locum e Scholiaste suo inedito. Quæ in edd. Basil. addita sunt veterum Grammaticorum Scholia, ea sunt excerpta et collecta ex libris Grammaticorum superstitum.

CODICES.

Codices MSi Horatiani non tam insignes quidem et elari exstant, quam Virgiliani; sed tamen non pauci, aut contemnendi. Codicem optime notæ commemorat Barthius *Adv.* XXXV, 2. Bentleius Reginensem p. 13, 16, etc. Leidensem 800 annorum, Cantabrigiensem 600, item alium Galei; v. et Burmanni præf. ed. 1713, 12. MS. Biblioth. Cum Pindaro Horatium contulit Franc. *Blondellus* singulari dissertatione vulgata Gallice, Paris. 1673, 12, atque inde Amstel. docetque Horatium magis usum judicio, Pindarum enthusiasmo poetico plus indulxisse. Vide etiam, si placet, egregii poetæ *de La Motte* dissertationem, eodem idiomate editam, de ratione et virtutibus Odarum.

Parodias Horatianas ediderunt Casp. Cunradus, Jo. Otto Mariana, Melch. Adamus, H. Meibomius, Thom. Sagittarius, et novissime Joach. Henningius. E veteribus huc spectat aliquo modo *Metellus* Tegerseensis Monachus in Bavaria, qui circa a. C. 1160 metris Horatianis scripsit Quirinalia in laudem S. Quirini martyris, Episcopi Laureacensis, edita ab Henr. Canisio append. T. I, lect. antiq. T. III edit. Basn. Laudat hunc scriptorem, pro seculi, quo vixit, barbarie, non ineleganti, et Odas nonnullas ex eo

refert Petr. Taffinus de an. Sec. P. I, c. 8, et P. II, c. ult. *Parodias* Horatianas præterea vulgarunt Jo. *Morellus*, Musci Rhemensis Parisini Gymnasiarcha, Paris. 1608, 8. Justin. *Bertuchius*, Gymnasii Portensis Rector, et Dav. *Hoppius* scholæ Regiomontanæ Prorektor, Brunsv. 1690, 8. In Jo. Jac. *Hofmanni* Poematibus, excusis Basil. 1684, 12, liber primus integer Proteum Horatianum complectitur, sive Odas Horatii selectas, quas exhibet redditas vario carminis genere, Alcaico, Anacreontico, anapæstico, Asclepiadeo, choriambico, elegiaco, epico, iambico, Phalæcio, Sapphico. Paraphrasin heroicam aliquot odarum Horatii habes etiam in poematis præclaris Jac. *Wallii* Soc. Jesu Antu. 1656, 8. P. Aloysii *Hardevyst* Soc. Metrorum Horatianorum rationem explicarunt, ex antiquis Diomedes III artis Grammat. p. 517-528; e recentioribus Nic. Perottus et Aldus Manutius, quos jam supra memoravi, tum Franc. Patricius, cujus liber scriptus fuit in bibl. Heinsiana, Th. *Harsley*, Lond. 1736, 8; ut Dan. Bambergium aliosque omittam.

Horatium a Jul. Caesaris Scaligeri censuris defendit Bernh. Parthenius Spielebergius in commentario ad Odas. ELENCHUS CODICUM MSS.

AD QUOS HORATIUS ADHUC EXACTUS EST.

DE Codd. Horatii in genere monendum, omnes, quos hodie habemus, e recensione *Vettii Agorii Basilii Mavortii*, qui quidem Consul fuit sine collega anno post Christum DCCXXVII, et *Felici*, oratoris Urbis, fluxisse. Ita enim in antiquioribus Codicibus, Leidensi, Reginensi aliisque, uti Bentleius in præf. testatur, post Epodos litteris majusculis scriptum fertur :

VETTIUS AGORIUS BASILIUS MAVORTIUS V. C. ET
INL. EXCOM. DOM. EXCONS. ORD. LEGI ET VI POTVI
EMENDAVI. CONFERENTE MIMI MAGISTRO FELICE
ORATORE VRBIS ROMÆ.

h. *Vir clarissimus et illustris, Excomite Domestico, Exconsule Ordinario*, eodem Benth. interprete. Cf. Relandi Fast. Consul. p. 696. Ac librorum quidem MSS., qui supersunt, etsi pæne infinitus in bibliothecis numerus reperitur, paucos tamen, qui Sæc. X, attingant, paucissimos vero, qui illud probabiliter antevertant, inveniri, satis constat. Uti autem exiguum admodum istorum partem critico acumine excussam, et emaculando poetæ admotam esse res ipsa fides facit, ita bona fortuna accidit, ut iis, qui ad emendandum textum studia sua conferrent, optime fere quosque notæ libros MSS. inspiciendi copia facta sit, ut adeo de reliquis pervestigandis seduloque excutiendis non tantopere laborandum videatur. Atque hæc quidem fortuna Triumphis potissimum Horatii Censoribus, rite, si qui alii, creatis,

Lambino, Cruquio ac Bentleio contigit, Codd. Vaticanorum, Blandinianorum, Græviani, Reginensis ac Leidensis ope insignem ac novam prorsus ei lucem præferentibus.

Quo autem rectius intelligatur, quousque conatus Viorum doctorum, qui talibus præsiidiis instructi crisin in Horatio exercuerunt, processerint, quæque amplius de eo bene merendi supersit materies; brevem Codicum, ad quos Horatius adhuc recens est, elenchum subjicere visum est; nam pleniorcm et accuratiorcm, quam quidem res postulare videbatur, quandoquidem e critica eorum notatione lectionum pendet auctoritas, notitiam dare non licuit, quum ipsi, qui eos tractaverint, de iis subtilius dispiciendis supersederint, satisque habuerint, eos certis nominibus aut signis distinguere.

COD. ALDI ET MURETI.

Muretus quidem passim *veteres libros* crepat, nullum tamen discrete nominat aut describit; quo minus tamen existimes, antiquiores edd. ab eo designari, vetat lectionum, inde allatarum, discrepantia; v. c. I, 23, 5. Prieter hos laudat

Codicem Bernardini Lauredani, et

Codicem Achillis Statii perbonum ac pcrveterem, ut ipse ait.

Vid. Præfat. ad ed. a. 1555, et ad I, 1, extr. et passim.

Neque Aldus uspiam discrete tradit, quibus Codd. uses fuerit. Satis habet, Codd. manu scriptos ab *impressis* distinguere. Laudat quidem ad III, 12. Codicem Viennensem antiquum *Stanislai* cujusdam *Zaur*, ex quo illud carmen constituit; sed hanc solam notitiam de eo acceperat ab amico; ipse adeo nunquam manibus tractavit, aut lectiones inde enotatas habuit.

Codd. DIONYSII LAMBINI.

Lambinus cum Francisco Turnonio Cardinali Romam profectus, ibique eam, quam diu expetisset, veterum librorum copiam nactus, multos Horatii Codd. MSS. inspexit. Ii sunt :

Codices Vaticani quinque, quos antiquissimos vocat, nec tamen pluribus describit.

Codex Donati Jannocii Florentini, ad quem testamento Rodolphi Cardinalis pervenerat.

Codex Gabrielis Faerni.

Codex Ludovici Ursini, Farnesiorum consobrini, ab Hannibale Caro ipsi donatus, in quo desiderabantur Sermones.

Liber Rainutii Farnesii Card. typis quidem excusus, sed cum antiquissimis atque optimis codd. comparatus atque ex iis plurimis locis emendatus.

Codex Joannis Tornesii, typographi Lugdunensis, Lambino ex Italia reverso, commentariisque jam absolutis, nec opinanti oblatus; quem ille vetustissimum censet.

Tum ad ultimam editionem adornandam Lutetiæ sex alii codd. etiam usus est. Ii sunt :

Codex Clerici, quem nactus est ab hæredibus N. Clerici.

Codices Russardini duo, accepti a Lud. Russardo, juris doctore Avarici Biturigum.

Codices Nicotiani tres, dati ei a Jo. Nicotio, legatione apud Lusitaniam regem functo.

Codex Colombinus, donatus ei a Jo. Colombino Monstroliensi.

CODICES JACOBI CRUQUII.

Codices Blandinii, seu Blandiniani quatuor, ex bibliotheca Blandinia, h. PP. Benedictinorum S. Petri in monte Blandinio Gandavi, quo Roma perlati erant. Sed illa bibliotheca, una cum Dunensi, a Belgis tumultuantibus, templa-

que et ecnobia vastantibus (unde *εικονολάτραι* Cruquius vocat ad Serm. I, 1), anno MDLXVIII plane perditæ et exusta est. Hos codd. quum omnes venerandæ vetustatis esse et ad Sæculum IX referendos indicat vir intelligentissimus (Append. ad lectorem), eosque omnibus suis reliquis præfert; tum unum eorum, quem eum virtute *Blandinium antiquissimum* dicere solet, et sic ultra Sæc. IX etiam rejicit, omnium maximi æstimat; quem eundem Vir *κρίτικώτατος*; Cuningamius (præfat. Horat. et anidmadv. c. 16, p. 297) omnium qui exstant, eodiem Horatianorum emendatissimum optimumque pronuntiat. Mentionem ejus facit etiam Muret. præfat. ad edit. 1555. Descriptionem ampliorum Blandiniorum codd. in Cruquio frustra quæras, nisi quod ad Serm. II, 7, 64, *barbarissimos* eorum *characteres* vocat: ex quo tamen non multum sumi possit.

Codex Divæi, cui etiam magnum pretium statuit vir doctissimus.

Codex Silvius, qui Gualteri Silvii erat. Cruqu. ad Serm. I, 3, 5.

Codex Buslidianus, e bibliotheca Gymnasii Buslidiani trilinguis Lovanii, quem a vetustate commendat ad Epist. I, 1, 57. Apparet autem, mutilum fuisse.

Codex alius *Buslidianus* laudatur e. g. ad Epod. II, 69, ejus autem, quum fere modo unius Buslidiani mentio sit, exiguum tantum fragmentum fuisse suspicor.

Codex Carrionis, itidem mutilus.

Codex Martinius s. *Martinii*.

Codex Tonsanus ex bibliotheca Tonsana, qui solos Sermones continuisse videtur.

Codex Maldeghemius, qui solas odas videtur habuisse, quemque Cruquio commodasse puto Jacobum a Claerhout D. de Maldeghem, ejus mentio ad Serm. I, 2, 106 quamquam ibidem etiam memoratur Judocus Maldeghem D. de Leischot.

CODICES GE. FABRICII.

Ge. Fabricius vetustis et optimæ notæ quibusdam codicibus mss. et in Italia, et in Germania conquisitis, usus est, e quibus inprimis ab eo commemorantur.

Codex Anhaltinus, missus ad eum a Georgio principe Anhaltino et Ascaniensi: quem a vetustate et bonitate lectionum maxime commendat, eumque sibi Lydii lapidis loco fuisse ait, cujus beneficio emendarit ac restituerit loca plurima, et Acronem multo habitiozem et nitidiorē in palæstram literariam produxerit. Vid. Præf. ad edit. 1555.

Codex Saxonicus, communicatus cum eo a Laurentio Scradæo.

Codex Thuringicus, missus ei ab Wolfgango Werthero, Equite Thuringo, sed non integer.

GE. BERSMANNUS.

Sex codd. MSS. usus est, quos acceperat a Posthio, Jacobo Monavio et Jo. Cotteritio.

CODICES R. BENTLEII.

1. *Codex Grævianus*, vetustissimus, annorum DCC, cui tamen Epistolarum et Sermonum pars magna deerat. CODICES GESNERI.

Codex Gottingensis, in bibliotheca academica, chartaceus, eleganter scriptus, recentior quidem, sed optimas plerumque lectiones habens. Scholiis instructus est marginalibus et glossa interlineari. Fuit quondam ex libris *Congregat. S. Mauri* Rom. quod alterum ejus folium testatur. Sermo-nes subjectos habet Epistolis, quæ librum claudunt.

Codicum Hannoveranorum duorum, ex bibliotheca regia, fragmenta membranacea, 8 min. Unum caractere Longobardico, sed tenui et eleganti, nec tamen sine vocum compendiis, scriptum, continet Serm. I, 1—2, 121, tum I, 4, 4—II, 4, 50, porro II, 6, 14 usque ad finem libri. Alterum, literis minutissimis Longobardicis, habet Epist. I, 3, 27—1, 18, 13.

Collatio Saxiana h. e. variantium lectionum sylloge, a Christo. Saxio descriptarum partim de exemplo Cuningamianæ editionis, cui eas adleverat Cortius ex uno cod. Lipsiensi, et uno Vinariensi, partim de alio Mættarianæ editionis, cui docta manus IV Codicum lectiones adscripserat. Ex ea sylloge, sibi missa, pro consilio suo quædam enotavit Gesnerus, quæ syllaba *Sax.* designantur.

Codex Jo. Brodæi, cujus collationem adscriptam exemplo Torrentianæ editionis habuit Gesnerus. Ex iis, quæ in fine codicis sunt, apparet, eum esse e sæculo XIV. Lectiones quasdam exhibet memorabiles; multas optimas, ut Carm. II, 10, 10.

CODICES JANI.

Codices Dessanienses duo, ex Italia eo perlati, quorum *primus*, membranaceus, in folio minori, laceratus et mutilus. Manipuli, quorum singuli integri habent IV plagulas complicatas, numeris romanis, ab alia manu additis, certe repa-

ratis, signantur, et progrediuntur ad XXII. Paginæ nec numerum, nec custodem habent. Textus totus est ab eadem manu, pallescente Longobardico caractere, præter initiales versuum quadratas, eleganter et ad lineas instrumento ferreo impressas, scriptus. Literæ initiales majores desunt, nec nisi rarius suppletæ sunt a manu secunda. Semper *f* longum in fine; *i* fere sine apice; vocum compendia semper eadem; correctiones a manu prima, quæ scribam doctum prodant. Scholia, tam interlinearia, quam marginalia, quam plurima, lectu difficillima, sed et præter ea, quæ in Scholiastis jam legimus, parvi pretii. Habet codex multas lacunas; 1^o a libri I Carm. 13, 19 — II, 9, 16; 2^o a l. III, 2, 29 — 4, 15, tum a 5, 27 — 7, 12, item a 9, 4 — 16, 2, denique a 19, 1 — IV, 14, 52; 3^o a l. V, 1, 1 — 2, 50, tum a 5, 71 — 17, 27; 4^o Epistolarum libri I deest ultimus versus; in libro II autem 1 — 2, 65; 5^o a Sermonum lib. II, 5, 45 — 90, tum a 6, 26 — fin. item a 7, 46 — 91 et ab 8, 65 — fin. Titulus ab alia manu, haud dubie eadem, quæ manipulos numeris instruxit, exhibet post indicem operum Horatii hanc notam: « Sanctæ Dei genetricis Mariæ Sanctique Cipriani episcopi et martyris in Nigenburga. Reparatus (h. vel emtus, vel renovatus) anno domini millesimo quadringentesimo septuagesimo. » Si omnia hæc et inpr. etiam scripturam recensionemque codicis expendamus, probabile sit, illum e Sæculo XIV esse, sed ex vetusto admodum et bono exemplari descriptum.

Codex secundus, membranaceus, in forma octava, rudi filo et glutine (recentius fortasse) compactus, Longobardicis literis minutissimis, sæpe negligenti et fugitiva manu, et pallido atramento scriptus. Manipulos habet IX, quorum ultimus V, ceteri VIII folia continent, sine numeris et custode. In odis singulæ paginæ in binas sectiones divisæ. Initiales majores rubræ, virides, atræ. Versuum initiales

paullum eminent, sed ejusdem et manus, et characteris cum textu, nisi quod nonnullæ sunt quadratæ minores. Semper *f* in fine longum et *i* sine puncto. Vocum compendia semper diversa, versuum ordinandorum frequens neglectus; correctiones vel negligentes, vel perversæ, commutationes literarum, ut *d* et *t*, *b* et *v*, scribam declarant rudem et imperitum. Quantum e scriptura ceterisque argumentis assequi possis, videatur hic codex paullo recentior priori.

Codex Mentelianus, e Sæculo XI, qui olim in bibliotheca Jo. Jac. Mentelii fuit, cujus lectiones Marquardus Gudius exemplo editionis Murcti, Venet. 1582, 8, adleverat, unde adscriptæ sunt exemplo editionis Desprezianæ, quod in illustri bibliotheca academici Lipsiensis servatur. Adscripta est eidem huic exemplari Despreziano (sic tamen, ut diligenter distinguatur a lectionibus Codicis illius) varietas editionis nitidæ Parisiensis, ex officina Vascosani. Ex his emendanda sunt, quæ in Fabricii biblioth. lat. (ed. nov.) T. I, p. 409, traduntur; ubi et dicitur ille codex Mentelianus Lambini olim fuisse, quod falsum est. I, 28, 6; 31, 18; 37, 28; II, 3, 11.

Codices Lipsienses quatuor, qui in bibliotheca senatoria Lipsiæ asservantur; quorum *primus* (pulpit. I, n. 6), membranaceus, fol. complectens CX folia, nec numeris, nec signis distincta, quorum octona videntur manipulum efficere. Singula folia interdum a bibliopego permutata sunt. Scripsit totum cod. una manus, sed illa sibi non constans, nunc majores, nunc minores pingens literas, quæ non quidem plane rudes, at neque elegantes dicendæ. Sunt eæ, etiam initiales versuum, minusculæ, magis latine quam gothicæ. Initiales carminum, more in MSS. consulto, plerumque desunt, et leviter tantum sunt designatæ. Compendia vocum crebra. Atramentum temporis diuturnitate fuscum factum. In primi et ultimi folii columna priori sic deletæ li-

teræ, ut legi vix possint; quare primos XI versus odes I senior penna denuo induxit. Ex omnibus his, aliisque, probabile, codicem Sæc. XIII, aut XIV, in Italia scriptum esse. Duabus quasi partibus constat, in quarum prima, quæ Odas, Epodos et Carmen sæc. continet, singulæ paginæ in bimas sectiones divisæ sunt, lineæque ductæ tam transversæ XXVIII, quam ab utraque parte ad perpendiculum, quibus initiales literæ et longitudines linearum definirentur. Nec libri, nec singula carmina numerata. Pauca inscriptiones, rubræ illæ et a seriori manu. Ut ante artem poeticam: « Incipit liber poeticæ. » Ars poetica statim sequitur Epodos. Scholia in prima parte paucissima, in altera plura, etiam a prima manu; a qua et codicis inscriptio est: « Opa Oracy: item poetria. »

Codex secundus (pulpit. I, n. 38), membranaceus, in 4, folia habens CXV; nam primum folium deperditum est, ut nunc codex incipiat a v. 38 odes II. Folia non signata; quædam et a bibliopego permutata. Octonis constant manipuli, præter XIII et XV, qui habent sena. Eos manipulos senior manus in infima prima pagina signavit, I^o, II^o, etc. Ab una manu totus codex est, sed negligentior sæpe scriba proditur, verbis aut integris versibus omissis, post ab alio supplementis. Nec literæ sibi constant, neque atramentum. Vocum compendia plurima. Diphthongi plures, quam in ceteris tribus, geminæ literæ pauciores. Quæ omnia, conjuncta inprimis cum scripturæ specie, suadent codicem ad sæculum XII referre, et habere pro antiquissimo Lipsiensium quatuor. Lineæ in singula pagina ductæ XXXIV. Initiales versuum alterne rubræ et atræ; illæ carminum et librorum pictæ, sed arte rudi. Nulla librorum divisio, nulli numeri. Pro inscriptionibus carminum solius metri designationes sunt, minio scriptæ, sed lectu difficiles, sæpe etiam falsæ. Scholia passim adsunt, sed pauca, nec multi momenti. Ars

poetica est inter Odas et Epodos, Epistolæ ante Sermones. Folia quædam ab initio et in fine situ et vermibus admodum corrupta sunt.

Codex tertius (pulpit. I, n. 39), membranaceus, in 4. Fuit olim Nicolai Heinsii (Vid. ejus Catal. P. II, p. 89), e cujus bibliotheca redemit Fr. Bened. Carpzovius (quod hic ipse notavit), unde in biblioth. senat. pervenit. Habet codex LXXXII folia, superne numeris 1, 2, 3, etc. signata (quamquam XVIII ultima elegiam continent scriptoris recentioris, cui in fine additum: « Explicit Yronia Gaufridi »); quorum octonis constant manipuli: quos non solum in una pagina literis *a, b, c*, etc. signavit primi librarii manus, sed etiam folia singuli manipuli appositis numeris, $a^1 a^2 a^3$, etc. In fine manipuli cujusque custos est. Membrana adhuc satis nova, atramentum nigrum, licet pallescens. Que omnia, præter ductus characterum, codicem admodum recentem arguunt. Est ille literis gothicis eleganter et cum cura scriptus. Vocabulorum compendia in eo plurima. Initiales carminum admodum minuto characterè designantur. Continet liber IV libros Odarum, librum Epodorum et carmen sæculare, sine librorum divisione et titulis: nisi quod inter singulas odas una linea vacua relicta est, in qua scior manus quibusdam odis inscriptionem posuit; quæ et omissa a librario supplevit, vitiaque emendavit. Lectiones interdum memorabiles habet, ut Carm. II, 4, 20. Scholia paucissima sunt.

Codex quartus (pulp. I, n. 40), chartaceus, in 4. Fuit olim, ut docet emblema a fronte insertum, Jo. Christo. Wagenfeilii, et constat foliis LXXXVIII, quorum IV prima vacua sunt, VI ultima nil præter pauca de metris odarum, eaque nullius momenti, paginis sex exhibent. Foliis numeros dedit prima manus, usque ad 55. Manipuli quatuor priores, cum septimo, habent folia X, quintus XII, sextus XVI,

octavus IV. In cujusque lineæ custos est. Characteres admodum similes hodiernis Italorum. Compendia vocum valde multa ac impedita. Omnia produnt codicem admodum recentem. Atramentum satis nigrum adhuc, licet jam inclinans ad rubicundum colorem. Nec libris, nec odis numeri dati; plerumque tamen unius lineæ spatium inter has relictum. Continet codex odas, epodos et e Carmen sæculare; et est valde vitiose exaratus: habet tamen lectiones interdum vix alibi obvias; e. g. Carm. I, 14, 13. Scholia passim pauca adsunt.

Codices Alterfini duo, in bibliotheca academica, quorum descriptionem et lectiones Cl. Nagelius inde ab a. 1766 octo plagulis singulis edidit, quorum

Primus, membranaceus, in 4 non adeo antiquus, M. D. Omeisii, cujus olim fuit, iudicio, in fronte libri adscripto. Est is minutiore literarum characterē, sed negligenter et vitiose admodum a scriba valde indocto exaratus. Attamen e bono, et nunc ignoto antiquo codice exscriptus videtur; habet enim lectiones multas egregias et elegantes, quæ vel raro, vel nusquam alias reperiantur, nec profecto ex ingenio stupidi fraterculi venerint. Continet codex omnia Horatii, sed cum magna lacuna, a Serm. I, 5, 57 — II, 1, 49. Ars poetica sequitur statim Carmen sæculare. Initiales carminum multo auri levigati nitore splendent. Lectionum ejus specimen dedit *Ch. Theoph. de Murr* in *Memorabil. Biblioth. Norimberg.* P. III, p. 77 sqq.

Codex secundus, chartaceus, in volumine, quod et Ciceronis de officiis libros, item Claudiani de raptu Proserpinæ Carmen, Carmen de litæra Y (quod alias Virgilio tribui solet), Virgilio moretum, et partem batrachomyomachie Homeri, CLIV latinis hexametris expressam, continet. Satis eleganter scriptus est Horatii codex, multisque interpunctionibus distinctus. Magna in illo etiam librarii iguorantia proditur,

in Græcis præsertim. Veluti arti poeticæ subscripsit: «Τέλος Φύνης. Το Θεο χάρις.» Ars poetica inter Sermones et Epistolas collocata est. Quamvis recentior hic quoque codex haud dubie sit, forte e Sæculo XIV exeunte, tamen idem ob lectiones non solum bonas plerumque, sed et proprias ipsi quasdam, easque elegantes et memorabiles, e bono et vetusto libro descriptus et emendatus videtur. Nam emendatorem ceterum indoctum hominem fuisse apparet. Vid. v. c. ad I, 15, 35; 21, 13; II, 12, 8 et 21. Cf. *de Murr.* lib. laud. p. 108 sq.

Codex Franequeranus, in bibliotheca academica asservatus, venerandæ antiquitatis, cujus et Bentleium lectiones habuisse vidimus, sed paucissimas et negligenter excerptas. Tum quoque Lamb. Bos in animadverss. ad Horatium (quæ ejus animadversionibus ad scriptores quosdam Græcos, Franequ. 1715, 8, subjectæ sunt) nonnullas illius lect. commemorat. Pleniorẽ ejus lectionum recensum accepit Jani ab Herbellio, qui a. 1770, cum Franequæ versaretur, codicem istum cum Cruquiani Horatii editione anni 1593 docte diligenterque contulit. Est codex membranaceus, forma, quæ *in folio* vocatur, oblonga; habetque scholarum ineditorum insignem copiam. Vid. et Gutberleth. de Saliis, pag. 9.

Codex Helmstadiensis, formæ maximæ, chartaceus et levigatus, literis minusculis satis elegantibus scriptus. Vocum compendia pauca; semper fere *f* longum et *u* pro *v*; scripturæ errores crebri, imprimis in verbis, quæ a Græcis sunt. Initiales librorum variis coloribus pictæ et deauratæ; in singulorum carminum initiis alternant rubræ et cæruleæ. Incipit Ars poetica, sequuntur Sermones, Epistolæ, denique carmina. Librarius se appellat *Mariam Ieronimum*. Sæculo XIV exeunte scriptum esse codicem, omnia suspicari jubent. Sed diligentissime tamen ad antiquiorum librorum,

nobis nunc ignotorum, fidem emendatus esse videtur. Habet certe lectt. quasdam singulares, et memorabiles, ut I, 12, 35; 26, 10 et 11; 37, 28. Scholia etiam non pauca adscripta. Fuisse et hic, et ceteri libri mss. bibliothecæ Helmstadiensis traduntur olim in Hungariæ regis Corvini thesauro. Lectionis varietatem cum eo communicavit Henkius, V. S. R.

CODICES GUELPHERBYTANI.

1. *Codex Gudianus*, n. 108, membranaceus, in folio, quod vocant, minore quadrato scriptus, continet *Horatii Carmina* (quæ tamen a L. I, c. 23, demum incipiunt) *Epidon librum*, *Artem poeticam* et *Satiras*. Est is satis nitide exaratus, literisque initialibus auro, quod diversicolor pictura ambit, illis condecoratus; pauca in eo scripturæ compendia, nulli numeri, at multas inter lineas ab eadem manu adscriptas variæ lectionis notationes et correctiones habet. Sic v. c. Carm. III, 4, 1, vitiose exaratum *Æscende* in margine corrigitur; Epod. I, 5, *quibus te vita si superstite præva lectio sit* adscripta est. Inscriptiones carminum vulgares exhibet (veluti Carm. III, 13. « *Proseutice in fontem blandisium, qui est in Sabino* ») et in carmine amœbæo III, 9, *Oratii* et *Lidia* nomina interserit, adjecto titulo: « *Antepodotice.* » Est etiam, ubi in plures partes dispescuntur carmina, veluti Serm. II, 3, in quo v. 168, *Servius Oppidius*, etc. novum sermonem (plane ut in Cod. Upsal.) orditur. Omnino hic codex ab indocto quidem et legis metricæ imperito homine scriptus, e bono tamen exemplari ductus videtur, dignusque adeo est, qui curatius inspiciatur.

2. *Cod. Gud.* n. 185, in 4, vergente ad finem sæc. XIV, scriptus, passim truncatus. Habet *Artem poet.* inde a v. 110, *Epistolas* et Sermonum L. I.

3. *Cod. Gud.* n. 303, membran. octonis scriptus, et quidem circa finem sæc. XIV. Continet *Horatii Epistolas* cum

scholiis interlinearibus et marginalibus satis ineptis et insulsis. In textu non nisi vulgares aberrationes deprehendas. Claudit librum versus:

Qui te scribebat hermannus nomen habebat.

4. *Cod. August.* n. 50, 1, membranac. octavæ, quam vocant, formæ. Habet tantum *Artem poeticam* cum scholiis inter lineas. Lectiones offert ubivis obvias.

5. *Cod. August.* n. 81, 31, fol. chartaceus, Acronis commentarium in Horatii Carmina, *Artem poet.* et *Sermones* complexus.

6. *Cod. Gud.* n. 160, fol. membran. sæc. XIV, exeunte scriptus, *scholia* offert in *Epistolas et Sermones*, digna, quæ bibliopægis utenda tradantur. Forte ipse ita sensit exscriptor, qui tædio victus v. 42 *Serm. ult. lib. II*, cum verbis: « et cetera » finem operi imposuit, adjecta appreciatione: « Te Deum laudamus. »

7. *Cod. Gud.* n. 323, octonis scriptus, *scholia* in *Horatii Epistolas et Satiras* continet, ejusdem farinae ac præced. In fronte legitur: « Dñus Gherardus de Pochhæest Abbas egmondensis me renovavit A. D. 1406. » Tum ab alia manu, forte ipsius P. Scriverii: « Ex direpta bibl. Egmondani cœnobii in Hollandia hunc librum vindicavit Petrus Scriverius. »

8. *Cod. Gud.* n. 85, membranac. in 4, sæc. XIII exaratus, *Porphyriomem* exhibet, manu satis luculenta scriptum.

CODEX BARTHII.

Commemorat Vir doctissimus, *Advers.* XXXV, 2, codicem ut ait, venerandæ vetustatis, DCCC annorum, atque ex eo profert quædam; sed neque amplius illum describit, nec urbem quidem, ubi cum viderit, nominat. Facilis nimium erat Barth. in constituenda codicum ætate. Vid. Ill. Heyn. clench. codd. Virg. Tom. I, p. XXXII.

Codd. CAR. COMBIL.

Editionem insuper principem, in Bibliotheca Regia asservatam, perlegit, et lectiones varias inde enotavit.

Codd. JOS. NIC. DE AZARA.

Interioris notæ Codd. aliquot, ad quos textum typis Bodonianis exprimendum exigeret, ad manum habuit Eques illustrissimus, e bibliotheca amplissima eademque lectissima Chisiana depromptos; *quinque* nimirum *Oderum*, *tres Epistolarum*, *Artis poeticæ* et *Sermonum*, quorum duo ex eodem thesauro accessere: tertium Zeladiana Bibliotheca suffecit. Lectiones, quas in iis deprehendit, seitas doctasque idem vocat in doctissima, eleganterque scripta Præfat. p. X, ut adeo maximopere dolendum sit, lectionum exquisitorum silvulam in calce libri non adjectam fuisse.

Codd. OBERLINI.

Quatuor Codd. MSS. Argentoratensibus usus est Oberlinus, vir humanitatis pariter atque exquisitoris doctrinæ laude florentissimus, e quibus in usum critices extantiora

in calce splendidissimæ suæ editionis adjicienda curavit. Ita vero accuratissime eos describit:

Cod. A. Formæ quartæ, sæculo X tribuendus videtur, quod frequentior diphthongorum, separatis literis scriptarum usus et rariora vocum compendia docent, ut alia argumenta taceam. Continebat Odas, Epistolas atque Satiras, ex quibus varia supersunt. Statim vero dcest folium primum, adeoque incipit codex ab Odes II, l. I, v. 2, hinc pergit ad v. 1 odes XXIX, ubi lacuna occurrit ad versum usque 16 Odes XXXI, inde procedit ad v. 31 Od. II, l. III. Tum adsunt folia duo, quæ fragmenta exhibent Epist. II l. II, scilicet a v. 112 ad 152, item a v. 193 ad finem. Cui subjectæ leguntur Satiræ ordine consueto, ubi tamen excisum folium unum abstulit partem Satiræ II et III l. II, a v. 132 Sat. II, ad v. 75 Sat. III. Desinit codex v. 94 Sat. V. Liber de Arte poetica ex eo plane exulat. Satis accurate ceterum scriptus est, et a vitiis immanis. In vocibus compositis et accusativo plurali in *is* exeunte frequens antiquam formam servat, quod idem et de sequente codice valet. (Extat in Bibl. Academica.)

Cod. B. Formam cum primo eandem obtinet, ejusdem cum eo sæculi putandus est. Scriptura est nitida et sollicitè curata; argumenta rubro colore sunt tineta. Innotuit olim *Casp. Barthio*, qui mentionem ejus facit in *Adversariis* l. XXXVI, c. 14. Leguntur hic *odæ*, et quidem ab initio ad vers. 29 Odes XXXV, l. I. Tum pergunt v. 19 Odes XIII, l. II, unde continua serie procedunt ad finem libri IV, post quem videtur in codice, ex quo hic noster descriptus est, secutus liber de Arte poetica. Ita enim rubrum habet: « Q. H. F. de Arte poetica explicit, incipit Epodon, » et glossa adjecta in margine ista addit: « Finitis quatuor libris carminum et poetria Horatius a Mecænate rogatus, ut, si aliquod genus metri apud Græcos inveniret, id Latinis

ostenderet, » etc. Neque vero in nostro codice inserta fuit *Ars poetica*; sequitur enim illud rubrum statim « *Liber Epodon* » in eodem quaternione ab initio ad *Odes* X v. 8, ubi deficit, tum rursus pergit ad *Odes* XIV v. 12, ad finem *Epodon*, cui subjicitur carmen sæculare. Scholiis abundat hic codex æque ac prior; de quibus alibi forsitan aperiatur dicendi locus. (Bibl. Acad.)

Codex C. Folio oblongo. Spectat ad sæc. XI, aut initium XII. Rarissimas habet diphthongos sejunctim pictas; hinc inde vocalis tertia duplicata gemino accentu insignitur. Cæterum in medio diversa literarum forma diversorum librariorum manum arguit. Complectitur *Artem poeticam*, *Satiras* et *Epistolas*, et omnia quidem hæc opera integra. Scholia habet rariora. Mendis hinc inde scatet. (Jo. Jac. Gamsii.)

Codex D. Formæ quartæ. Sæc. XI, vel XII, hunc quoque adsignandum puto. Minorem librarii curam frequentiora vitia, scripturæ inæqualitas et passim ruditas produnt. Habet librum de *Arte poetica*, *Epistolas* et *Satiras*. Scholia pauciora margini visuntur addita. Est, ubi credas, ad dictata recitantis verba excepiisse scribam; sic l. I, Sat. X v. 50, habet *addixi* pro *at dixi*. Sed idem in Cod. C. nonnumquam observare licet; sic l. II, Sat. VI v. 54, *ad omnes Dii* pro *at omnes Dii*. (Franc. Phil. Louis.)

Hactenus de Codicibus, quorum auctoritate Horatii lectio stabilita est. Jam, quo melius perspiciatur, quam exiguum omnino illud sit, si numeri ratio habeatur, quod in poetam nostrum e Codd. redundarit adjumenti atque commodi, et qui fructus amplius inde sperandi sint; librorum MSS. maximam partem nondum excussorum, copiam, per cultiorem Europæ partem sparsam, sub unum conspectum hic

adducere et tanquam in tabula representare visum est : quamquam ex notitiis, quas bibliographi de iis suppeditant, parum accuratis ac subtilibus, quem usum criticum præstaturi sint, omnino parum tuto statui posse ipse sentiam. DE
HORATII EDITIONIBUS.

QUUM præstantiores fere scriptores veteres, ad quos illustrandos emendandosque Viri docti inde ab inventa arte typographica certatim studia sua contulere, singulis propemodum annis plura præla exerceuerint, fieri vix posse existimo, ut lectionis seu textus, quem vocant, origines ac fontes plane indagentur, necdum rivuli omnes inde deducti, Meandrique instar ludentes, expediantur. Fere enim quisque, ut alias causas taceam, novando interpolandoque pedum vestigia, vulpeculæ instar, delcre studebat, novumque iter ingressus videri cupiebat. Quamquam igitur editionum stirpes, familias et cognationes deducere ac distinguere difficillimum sit, tamen, quum fata ac vicissitudines contextus, per tantum temporis tractum, ad quem fere caligat visus, propagati rationem mutationesque nosse perquam jucundum, ad crisin autem recte instituendam admodum necessarium sit, committere nolui, ut opera ista in Horatio prorsus desideraretur. Experturus igitur, quousque in hoc negotio progredi liceret, simulque pleniores accuratioresque editionum hujus poetæ annales confecturus non tantum edd. congerim a VV. DD. rem literariam augmentibus hucusque adgestam, amplasque, quas bibliotheca Academica Gotting. asservat, copias perlustravi diligenterque excussi, sed etiam libros, de rei librariæ primordiis exponentes, ac bibliothecarum insigniorum catalogos, aliosque, in quibus edd. Horatii notitiam aliquam occurrere memineram, inspexi, ac, summa quamvis cum

tædii molestia, pervolvere haud gravatus sum. Atque ita demum de nonnullis certiora exploratoriaque afferre licuit, simulque, Historiam textus Horatiani a Jani satis probabiliter et accurate concinnatam fuisse intellexi. Hanc igitur tanquam tabulam, in quam referrentur reliqua, a me leviter rasam atque deterfam præmittendam duxi, satis habens, de singulis, ubi opus esse putarem, suo loco monere.

Ex edd. sæc. XV, paucæ admodum, necque satis accurate a Viris doctis exploratæ sunt, ut adco, quænam ex iis principes habendæ sint, quæque ex aliis descriptæ sint, certo definiri vix possit. Priores quidem Mediolanenses ab una stirpe satæ videntur usque ad Mediolanensem a. 1508, quæ quidem ad Venetas alterius recensioneis transfugit. Nam et ipsæ Venetæ non unam eandemque textus descriptionem habent. Primæ illæ 1477, 1478, 1479, tum Zarottiana 1492 et 1498, e Mediolanensi exemplo aliquo anteriori ductæ sunt, lectione subinde ad veterem aliquem librum reficta; nam illas fere cum Mediol. 1477, quæ ad manus fuit conspirare vidi: tum novam familiam ducunt, quæ editæ sunt cum Landini commentario, qui primum prodiiit Flor. 1482. Unde pendent Venetæ 1483, 1484, 1486. Harum lectionem immutarunt passim edd. Venetæ a. 1490, quæ a Jo. Fr. Philomuso curata est, et 1492, apud Pincium, quas fere secutas deprehendi Venetas 1494, 1495, 1497, 1498, 1499, 1509, etc. De Neapolitana a. 1474, et Patavina Raph. Regii a. 1481, quod nemo adhuc dispexerit, tanto ægrius ferendum, quo probabilior suspicio est, illam e codd. omnino fluxisse, hanc critica eum cura factam esse. Lipsienses edd. fere sunt ex recensione Jo. Honorii Crispi Cabitensis, dignæ utique, quæ accuratius inspiciantur.

Inde a principio sæc. XVI, usque ad Lambinum primaria

quasi tria editionum stemmata erant: *Aldina*, *Juntina* et *Ascensiana* editiones (plane ut in Virgilio); quæ omnes quum et a superioribus et a se invicem manifesto discederent, tum suam quæque familiam et quasi propaginem editionum seutarum habuit; licet subinde ab una familia ad alteram transfugisse videantur editores. *Aldina prima* prodit 1501. Eam secutæ tres aliæ, 1509, 1519, 1527, quæ nihil in textu novasse videntur; sed quarum tamen emendatissima putatur 1519. Repetierunt Aldinum textum plures aliæ, ut Basil. 1520, item fere, Venetæ 1540, 1573, Parisinæ quædam ut H. Stephani 1, 1513, etc. Contra Aldi junioris editiones, quibus *Muretus* præfuit, in multis a prisceis Aldinis discedunt, novamque recensionem constituunt. Earum prima fuit 1551, sæpius deinceps repetita; etiam cum scholiis J. M. Bruti 1561, 1570, etc. Expresserunt hanc juniorem Aldinam s. Muretinam etiam Rouilliana 1559, Lugdunenses 1566, 1610, etc. Paullus autem Manutius a. 1566 et 1568 Lambinianum repetiit.

Juntina prima, a Phil. Junta expressa est a. 1503, quam secutæ ex ejus officina duæ aliæ, 1514 et 1519. Inter emendatissimas habendæ Juntinæ, nimiumque neglectæ sunt ab editoribus; quamquam non defuerunt, qui eas sequerentur.

Ascensiana, h. Jodoci Badii Ascensii commentariis instructa, *prima* prodit a. 1503; quam secutæ (1505, 1506), 1511, 1516, 1519 et 1529. Si verum dicendum, respectu ad textum universum habito Ascensianæ ab antiqua recensione, quam habet Veneta 1492 et ejus familia, non multum discedunt; in singulis lectionibus quædam omnino aliter exhibent. Sed in his ipsis etiam editt. 1519, 1529 a prioribus sæpius dissentiunt; nam lectiones ex Ascensianis 1503, 1511, 1516, laudatas reperias, quæ non sint in illa 1519. Scilicet in hac subinde Ascensio Matth. Bouffinis

imposuit. Transcriptæ autem ex Ascensianis complures Venetæ, ut 1536, 1543, 1558; Lugdunenses, ut 1519; Parisinæ, ut 1528, 1543, inprimis ex Ascensiana ultima 1529 expressæ sunt editæ. Parisinæ Roignii, Vascosani et Richardi. Vid. Cuning. Animadv. c. VIII.

Maxime memorabilis et inter classicas referenda est editio Lugdunensis a. 1511, et summæ raritatis, et emendatæ sanæque lectionis nomine. Sed quis ei vir doctus præfuerit, non certo constat; quamquam probabile est, Simonem Carpentarium fuisse. Id apertum, diligentem accuratæque doctrinæ virum fuisse. Fundamentum editionis est textus Aldinus, sed multa ex antiquis libris editor in eo correxit. Ducta haud dubie ex hac Argentinensis ex ædibus Matth. Schurerii, qua Horatii opera separatim prodierunt, annis 1514-1517; quod facile intelligatur ex inscriptione tomæ IV an. 1517, comparata cum inscript. Lugdunensis.

Ge. Fabricius, Chemnicensis, exemplo Juntino, ut videtur, pro fundamento posito, codices etiam mss. in subsidium vocavit, deditque Horatium eum argumentis et castigationibus, Lipsiæ 1570, quæ editio post sæpiissime repetita est. Inprimis autem unus omnium maxime promeritus est Fabricius de antiquis Horatii Intpp. vel Scholiastis, non Acrone et Porphyrione solum, sed et, quorum pauca tantum fragmenta exstant, C. Æmili, Julii Modesti et Terentii Seauri; in quibus restituendis ac emendandis operam per multos annos assiduam posuit; cujus fructus publici usus fecit editio *Henricopetrina* 1555, inter præstantissimas, sed et rarissimas numeranda.

Glareani prima editio 1523 fere ducta est ex Aldina 1519, sic tamen, ut ipse nonnulla, audaciori interdum conatu, correxerit. Repetita sæpius.

Editiones *Sim. Colinaei* 1528, 1531, 1533, etc. presse se-

quantur Aldina exempla; de fonte *Gryphianarum* 1530, 1533, etc. nihil adfirmare ausim; nisi quod *Gryphianæ* 1559, 1566, 1567, ex Muretinis ductæ videntur.

Robertum Stephanum I in editione prima 1539, iisque, quæ secutæ sunt, Juntinum exemplum operis imitandum dedisse, suspicor. Multo plus adjumenti *Horatio* attulit *Henricus Stephanus II*, dum in consilium adhibuit lectiones eodd. Lambini, Cruquii, Fabricii, Mureti; deinde et pauca, quæ aliunde habuit, sive codices, sive excerptas lectiones, consuluit, magnumque se et generosum, sed modestum quoque, in emendando criticum præstitit. Sunt editi. 1577, 1588, 1592, 1600. Denique *Ro. Stephanus III*, a. 1613 editionem minorem evulgavit, cum notis J. Rutgersii, in quibus multa utilia, imprimis ad crisin. Textus expressus est fere ex edit. D. Heinsii, etiam cum plerisque illius emendationibus.

Basileensium primariæ sunt tres ex officina Valentini Curionis (quibus præfuit Michael Bentinus), 1524, 1527, 1531, ex Juntino exemplo, ut arbitror, ductæ, sed adhibito etiam vetusto codice Jo. Sichardi, ut Bentinus in præfatione testatur. Has ex impressis emendatissimas esse judicabat Fabric. ad Carm. I, 6. *Henricopetrina* prima, 1545, sequitur editi. Curionis. Secunda est Fabriciana 1555, ex qua etiam textus repetitus est in tertia 1570 et quarta 1580; quarum utraque variorum Intpp. commentariis onerata atque obruta est; quod jam in prima factum erat.

Antuerpienses, ex officina Mart. Nutii, duæ, 1557 et 64, cum Theod. Pulmanni notis, ex Aldino textu ductæ, sed ob emendationes Pulmanni, et collatos ab eo eodd. admodum utiles. *Plantinianæ* non unius generis sunt. Prima fuit cura Raphelengii 1558, ex Aldino exemplo, recusa 1575, 1590 et 1608. Tum ex recensione Pulmanni, 1566, recusa deinceps 1577, 80, 82, 87, 1610, 77. Hinc ex ea prodierunt

Heinsiana 1606, item Cruquianæ 1573, 1578, 1586, 1678. Ex officina Plantiniana Raphelengii Lugd. Bat. prodire Cruquianæ 1593, 1597, 1603, 1604, 1611 et 1620, seu ultima; et minores editiones, 1594, 1604, tum Heinsianæ 1605, 1610, 1709.

Dionysii Lambini, magni illius Horatii sospitatoris, a quo novam ætatem editionum ordiri fas est, editio prima, ad fidem decem codd. MSS. emendata, prodiit a. 1561; altera et ultima, ab ipso quidem accurata, a. 1567. In hac adornanda VII aliis etiam codd. mss. usus est, et quædam in textu novavit. Quum certatim utraque editio per Galliam, Germaniam et Italiam repetita est; in quibus princeps est illa a. 1605, ob adjecta Turnebi et Marcilii commentaria: tum recensio Lambini in multis Venetas, innumerasque alias editt. est illata.

Jacobus Cruquius ad undecim codd. MSS. in quibus omnium, qui noti sunt, præstantissimi quidam, Horatium recensuit et commentario illustravit. Prima editio prodiit 1578 apud Plantinum, postquam jam a. 1565 librum IV carminum, et 1573 Sermones separatim ediderat. Sæpius ea recusa est; sed in editione 1597 primum accessit ineditus Scholiastes, vel, ut Cruquius dicit, Commentator, hoc est, sylloge scholiorum, quæ ille ex codicum Blandd. margine et interlineari spatio laboriosissimo studio eruit. Fuerunt (in his Barthius et T. Faber), qui huic commentatori exiguum admodum pretium statuerent; nam nihil in eo esse, quod non in Acrone et Porphyrione jam legatur. Quod licet negari non possit, confluisse quasi videri ex illis scholiasten Cruquianum, tamen is quædam subinde addit, alia aliter, luculentius etiam interdum, exponit, atque hætenus sua ei dignitas relinquenda est. Deinde huic edit. Cruquianæ etiam adnexus est Jani Dousæ, patris, commentariolus, quem huc usque non ita, ut opus erat,

inspexere Intpp. Horatii. Repetita autem est hæc editio a. 1603, 1611, quæ classica est, sed admodum rara, tum 1620 et 1678.

Greg. Bersmanni prima Lipsiæ prodiit a. 1602, cum variis lectt. sex codicum; et sæpius sub prælum est revocata.

Ex officina Plantiniana Râphelengii primum exiit a. 1605 Horatius ex recensione et cum notis *Dan. Heinsii*. Repetita est in eadem officina a. 1610 et 1709. Tum apud Elzevir. a. 1612, anuadversionibus auctioribus et cum libro de Satyra longe præstantissimo; item 1628 et 1629 (quæ classica est), et forma minore sine notis 1653. Denique, sine notis etiam, Amstel. 1676, 1696, et Edimb. 1704. Ex Heinsiana autem ductæ Rutgersiana 1613 (ut vidimus), item haud dubie Schrevelianæ, et quædam aliæ.

Lævinus Torrentius Horatium, subjecto textu vulgato, emendavit et recensuit ad fidem aliquot codicum. Prodiit prima editio a. 1608 ex officina Plantiniana; et est numeranda inter principes: repetita a. 1620, 1708.

Tanaquillus Faber Horatium recensuit et castigavit, sed e solo ingenio, a. 1671. Heinsium inprimis acriter in notulis suis insectatus, sed eo ipse sæpe non continentior. Expressus ex ejus recensione est textus Dacerii.

Petrus Barmannus edidit Horatium primum a. 1699, cum Rutgersii lectt. Venusinis, doctis et ad crisin utilissimis; deinde 1713 emendatum ad fidem codd. MSS. et ad Bentleyii editionem, a qua tamen, ubi ille audacior est, recedit. Utraque editio ad usum criticum præclara.

Prodiit anno 1699 etiam Cantabrigiensis editio *Jac. Talbot*, quum a splendore, tum a diligentia recensione, et variarum lectt. elenchio commendanda. Recusa est 1701, et repetita a Jo. Pine, qui æneis tabulis incidit Horatium 1733.

Willemi Baxteri prima editio exiit a. 1701. Nullis ille

codd. MSS. usus est, sed, vulgata lectione pro fundamento posita, ex commentatorum animadverss. interdum et ex ingenio, textum constituit. Excerpta e Scholiastis dedit, et in his ipsis etiam quaedam emendavit. In editione altera 1725 quæ accesserunt, tantum non omnia contra Bentleium sunt. Repetiit hanc Gesnerus in Germania; ut mox dicetur.

Sed clarissimam hujus sæculi haud dubie editionem dedit *R. Bentleyus*, qui Horatium tam ex codd. MSS. quos plurimos habuit, quam ex suspicione, amplius DCCC locis emendavit. Plurimum sane ei debet Horatius, estque hic, etiam ubi errat, ab ingenii doctrinæque magnitudine semper admirabilis ac venerandus. Prodiit prima ejus editio a. 1711, notis ad calcem libri subjectis: emendatio, et cuivis paginæ substratis notis, repetita Amstel. a. 1713, 1728, item Lipsiæ 1764, Londini 1765. Recusa etiam est, sed notis in compendium missis, Cantabr. 1713, cura Th. Bentleii. Naetus est Bentl. adversarios plurimos. Fuit eorum primus anonymus, cujus exstat: « Aristarchus ampullans in curis Horatianis, auctore Philargyrio Cantabr. » Londin. 1712, 8. Secutus est « Richardi Johnsoni Aristarchus Antibentleianus. » Nottingham. 1717, 8. Fuit in hoc viro major adversus Bentleium acerbitas, quam doctrina.

Omnium doctissime in hoc castigando versatus est *Alexander Cuningamus*, qui a. 1711 (Hagæ Com.) non solum edidit « Horatium, ex antiquis Codd. et certis observationibus (quas imprimis ex codice Blandinio antiquissimo Cruquii et Pierio Valeriano sibi informasset) emendatum, » cum variis lectt. sed subjecit etiam huic editioni « Animadversiones in Bentleii notas et observationes, » doctissimas illas, et unde eximios fructus capere possit critices studiosus. In Londinensi ejusdem anni edit. accedunt *Observationes criticae* textui subjectæ. Amplius CCCC locis

emendatiorem esse suam recensionem Bentleiana affirmat Cuningamius, superbior justo, si verum dicendum, et in Bentleium acerbior. Tantum est illius adversus hunc odium, ut, si lectionem Bentleianam amplectatur, eam nunquam Bentleio debere videri velit, sed semper studiose alios quosvis fontes indaget. Quos ubi non reperit, quamvis ei placere appareat Bentleianam, aliam adoptare mavult; ita non potest invidiam vincere. Emendationes autem ejus fatendum est omnium doctissimas esse ac ingeniosissimas, sæpe, si ad leges artis criticæ excutiantur, pro unice veris lectionibus habendas. Sæpius tamen non minor in iis, quam in Bentleianis, audacia est, sed illa melior profecto aliorum indocta modestia.

Sub idem tempus a. 1720, apparuit etiam editio *Joannis du Hamel*, in universitate Parisina professoris, repetita 1730 et 1764. Is Horatii textum et ad codd. MSS. fidem et multis locis ex ingenio audacius correxit. Sed indocta est ejus arrogantia, impar talibus ausis; quo nomine subinde eum castigat Sanadonius.

Sanadonius in contextu Horatii constituendo quum *Lambinum*, *Cruquium*, *Torrentium*, aliosque, qui codd. MSS. usi sunt, consuluit, tum multas Bentleii emendationes sibi vindicavit; sed omnium maxime Cuningamium secutus est, etiam, ubi is ultra lineas processit. Attamen et multæ emendationes ipsi propriæ sunt. Repetiit ejus recensionem novissima Patavina 1774.

Horatii Carminum libros V a. 1731 recensuit *Ge. Wade*, qui ea ad certissimas artis criticæ regulas quam plurimis locis ex vetustis exemplaribus, editionibus et commentariis emendasse se profitetur. *V. Journ. des Sav.* 1731, août, p. 561. Nobis ea non est visa.

Londini a. 1736 prodit editio *Joannis Jones*, qui se MSS. quibusdam usum ait, emendavit quædam (sed audacter

etiam satis), subiecitque notas suas, tum var. lectiones et conjecturas viror. DD. denique indicem editionum Horatii, sed illum e Fabricio totum transcriptum. Doctrina critica longe inferior Jonesius est Cuningamio et Bentleio. Sanadonum in multis, quæ illi propria sunt, sequitur.

Baxteri editionem quum repeteret *J. M. Gesnerus*, a. 1752, non solum in textu Baxteriano mutavit quædam, sed etiam e Codd. et editt. antt. varietatem lectionum, at illam minus plenam et accuratam, dedit. Recusa est Gesneriana hæc editio nuper a. 1772.

Denique a. 1770 prodibat Parisiis Horatius ad fidem LXXVI codicum, curante Abbate *Jos. Valartio*. Quod non accipiendum de numero Codd. quos inspexerit; nam forte nullum omnino vidit: sed de iis, ad quos adhuc Horatius a viris doctis recensens est. Sic itaque hoc intelligendum, ut cum in textu constituendo principes editt. quamquam parum accurate, contulisse putemus.

Qui Horatii editionem a. 1777 evulgavit, *Lud. Poinset de Sivry*, quum satis multas criticorum emendationes in contextum recepit, tum ipse, inprimis in distinctionibus, quædam novavit, quæ vereor ut probari viris doctis possint. Maxime improbandus est ejus conatus, quo tam multas Horatii odas, np. I, 4, 7, 9, 27, 36; II, 11; III, 8, 14; IV, 6, 12, in binas divisit; duas autem, II, 2; III, 19, in ternas adeo.

Sivrio majori cum laude successit *Chr. Dav. Jani*, qui quidem fundamentum posuit vulgatam lectionem, a qua tamen discedendum sibi putavit, ubi immutandam lectionem suaderent artis criticæ regulæ. Quem in finem non Codicum solum, quos Lambinus, Cruquius cæterique Horatii editores contulissent, quosque ipse nactus esset, varietatem enotavit, sed et edd. veteres, quæ ad manus ipsi erant, diligenter consuluit, indeque, quæ Horatio aptæ

dignæque essent lectiones eruit, atque, in contextu reposuit. Ipse conjecturis nunquam fere indulsit, aliorumque raro admodum nec, nisi gravissimis de causis, ita rationem habuit, ut ipsi poetæ textui ingereret.

Iustæ quoque recensionis instar habenda est editio, a *Gilb. Wakefield*, acutissimo Critico, parata, interpolatione sollicitius facta, delectuque lectionum memorabilis; quamquam cum conjecturis quum aliorum, tum suis, quarum quidem feracissimum habet ingenium, nimium pretium subinde statuisset animadvertas.

INDEX EDITIONUM,

IN QUATUOR ÆTATES DIGESTUS.

ÆTAS I, SIVE NATALIS;

1470, ad 1500.

1470*. Horatii editio princeps fere habetur, quæ nullam editoris, loci, temporis expressam notationem habet, ne titulum quidem s. indicem. *Maittaire* quidem (*Annal. typogr.* t. I, p. 292) eam Mediolani ex *Antonii Zarotti*, Parmensis (Vid. de eo *Affo Saggio su la tipogr. Parmense*, p. III) typographia a. 1470, prodiisse inde anguratur, quod Ant. Zarottus libros anno isto Mediolani excudere cœperit, et typi cum aliis, quos idem excudit, fere conveniant. Eidem Zarotto istam adsignant *Orlandi* (*Origine e progressi della stampa*, 1722), p. 101. *Saxius* (*Hist. typogr. Mediol.*) p. 556, et *Debure* (*Bibliographie instructive, Belles-Lettres*)

* Edd. quæ stellulis notatæ sunt, habet Bibliotheca Academica Göttingensis.

t. I, p. 311, 12. *Morellius* tamen, vir rei intelligentissimus, in *Bibliotheca Maphai Pinellii*, t. II, p. 324, ægre ac difficulter in hanc sententiam concedit, quod a Zarotti typis quum quoad characterem, qui plane idem sit, quem Plutarchi Apophthegmata a Philelpho latine reddita, Florus et Lucanus, absque ulla nota impressi præferant, tum quoad chartæ genus liber iste haud leviter dissidere videatur. Conf. *G. W. Panzeri* *Annal. typogr.* t. II, p. 143 et 354. Primum ista editio ad partes vocata est a Gesnero, qui eam ita describit: Literæ sunt ejus formæ, quam Jensonius adhibuit, sed paullo minus cultæ et incompositæ, ut appareat, neque matrices fuisse ita perfectas, ut fuere Jensonianæ, neque ita accuratam versuum dirigendorum rationem. Porro literæ nullæ initiales, sæpe *f* longum in fine vocis positum, etc. Volumen constat quinternionibus, i. e. quinque plagulis duplicatis, ut oriantur denorum foliorum libelli. Folia ipsa non signata neque literis, neque numeris, custodes nulli, nullum registrum, literæ sæpe transpositæ, infantia denique artis et operarum ruditas undique apparet. Voces vel omissæ, vel cum ipsius metri perniciæ permixtæ, fidem faciunt, non præfuisse editioni Grammaticum, sed simpliciter exemplum suum, i. e. manu scriptum Codicem, secutos esse typographos. Unde illud consequitur, ut, quæ bonæ sunt lectiones, eas ab antiquo codice, non ab ingenio correctoris esse intelligamus. Ad finem adduntur hi versus:

Hoc quicumque dedit Venusini carmen Horati
Et studio formis correctum effinxit in istis
Vivat et eterno sic nomine secula vincat
Omnia ceu nunquam numeris abolēbitur autor.

Post Gesnerum adhibuit eam *Car. Combe*, exempli ejus, quod in bibliotheca Regis Britanniarum asservatur (pervenit eo e biblioth. Askew), copia ei facta.

— *Sermones Oratii*, absque loci nota, caractere gothico, fol.

Vid. *Maître* t. I, p. 296; *Orlandi* p. 346; *Debure Bibliogr.* t. I, p. 311, et *Panzer* t. IV, p. 3. De hoc libro nihil plane liquet, qui ab uno Orlando inspectus videtur.

1471. *Q. Horatii Flacci Opuscula*, Romæ ex officina Johannis Philippi de Lignamine.

Quamquam parum exploratum sit, num *Opuscula* ista anni nota insignita sint, necne; ad hunc tamen vel adeo præcedentem 1470 annum, editionem istam referri oportere ex ipsiusmet Jo. Ph. de Lignamine Epistola, operi « Dominici Cavalcæ, Pungilingua (Tractato contra el peccato della lingua, ditto Pongie lingua ») inscripto, ac Romæ 1472 a se edito, præfixa cognoscitur. Ibi enim dicit, se jam *secundum* annum Romæ agere, et ab eo impressum esse Quintilianum, Suetonium, Leonis P. M. sermones, Lactantium, Ambrosium de Officiis, Laurentii Elcagentias, *Horatii Opuscula*, etc. Cf. omnino *Audiffredi* Catal. historico-criticum Romanarum editionum sæculi XV, p. 84, 85, et p. 112 sqq. ubi de *Jo. Phil. de Lignamine* fuse disputat. Adde *Laire* Spec. p. 187.

Eodem anno Horatium Neapoli apud Jodocum Hœnstein 4, prodiisse, ejusque exemplum in bibliotheca civica Argentinensi asservari dubia admodum fide tradit *Giustini* Saggio sulla tipogr. di Napoli, p. 46. Est haud dubie a. 1474.

1472. Ad hunc vel proximum annum *Debure Bibliogr. instruct.* t. I, p. 312, editionem referendam judicat, quæ sine loci, anni, et typographi nomine in folio excusa est, hoc solo ductus argumento, quod exemplum ejus, quod in Ducis de *La Vallière* bibliotheca esset, cum editione Catulli, Tibulli, et Propertii principe a. 1472, fol. compactum

fuisse, illudque integumentum ad ipsa ista tempora spectare videretur, tum quod Horatius iisdem fere typis exscriptus esset, quos Catullus et reliqui haberent. Quæ utraque quam levis ratio sit, facile rei intelligens perspiciet. Nisi utique extremo illud exemplum destitutum est folio (quæ res passim fraudem fecit VV. DD.), e verbis, Satirarum fini subscriptis : « Q. H. Fl. Satirarum, non indiligenter correctarum et impressarum finis, » haud plane absurde colligas, ex eadem *A. Zarotti* officina istum librum prodisse, quum Zarottum et alibi (vid. vel a. 1474), hæc formula usum esse constet. In corrigendis autem libris, quos Zarottus evulgavit, *Petr. Justinum Philephum* operam suam contulisse, satis constat. Vid. *Orlandi* p. 101.—Ejusdem editionis exemplum iudem *Catulli*, etc. editioni principi annexum in bibliotheca Corsiniana cum notis MSS. A. Politiani exstare testatur *Laire* (in Spec. typogr. Romanæ, Rom. 1778, 8) p. 186, qui quidem in Catullo, etc. *Ulrici Han* characteres agnoscit. *Maitt.* autem (p. 767) hujus Horatianæ editionis characterem ad eum accedere ait, quo Catull. Tibull. Propert. et Statii Silvæ Venet. 1475, apud Jo. de Colonia et Jo. Manthen de Gheretzen excusæ fuerint. Idem duas hujus Horatii editiones se vidisse perhibet adeo similes, ut, qui non attente contulerit, unam facile putaverit; et in altera epistolas, in altera Satiras librum claudere, atque illam hæc longe correctiorem esse.

1474. *Q. Horatii Flacci Opera*, per Antonium Zarottum Parmensem. Mediolani; 1, fol.

In fine : « Anno a natali Christiano 1474, die XVI Martii, divo Galeazio Maria Sfortia Vicecomite, Insubrium, Ligurumque quinto duce feliciter regnante Antonius Zarothus Parmensis cuncta opera Quinti Horatii Flacci non indiligenter emendata. S. carminum libros IIII, Epodon, Car-

men seculare, de Arte poetica librum I, Sermonum libros II, Epistolarum libros II, eleganter atque fideliter impressit. Quisquis hæc coemerit, nunquam pœnitebit. » Ita accurate descripsit *Laire* (Ind. Librorum ab inventa typogr. ad a. 1500; *Senon.* 1791), t. — Q. Horatii Flacci Odarum lib. IV, Epodon lib. I, Carmen seculare et Ars poetica, cum comment. Acronis et Porphyriionis curante Jo. Aloysio Tuscano, et cum ejusdem Epistola ad Franciscum Helium Parthenopeum s. loco (Romæ) et a. (1476).

De hac editione ita disserit Audiffredi p. 413: Jo. Aloysii Tuscani ea fuit cura, ut Horatii carminibus commentarii Acronis et Porphyriionis adjungerentur, quod antea nunquam, ipso testante, factum fuerat. Erunt, inquit in principio suæ epistole, qui inventum hoc nostrum lenocinii reum dicant, quod Odis et Epodis, ac Poesi Acronem et Porphyriionem commisceri curaverim. Nec deerunt, qui arguant, hanc rerum mixturam operi religionem ac majestatem detrudere. Et infra: Eos tamen, qui recte sentient, et libero judicio censere voluerint, novum hoc commentum nostrum arbitror probaturos. Cæterum qui editionis curam gesserunt, ñ fuere Cneus Sabinus et Helius, uti declarat ipse Tuscanus circa finem epistolæ: testis es tu,

inquit, qui una cum Sabino nostro in corrigendis redigendisque his voluminibus impensam operam navasti. Ipse vere Helius in fine epistolæ responsivæ ad Tuscanum sic scribit: « Sed hoc mihi molestum est, quod in his Horatii libris, qui te maxime hortante impressi sunt, non eam, quam vehementer optassem, emendationis diligentiam exhibere potui: at certe quantum in me fuit, et curam omnem et studium adhibui: sed Acronis exemplaria, ut scis, defuere, unum habuimus, nec id satis emendatum; utcumque tamen sit et libenter fecimus, et faciemus de integro. » Dux hæc epistolæ occupant quatuor priora folia, seu exactius paginas VI, et lineas VI. Sequenti quinto continentur duæ Horatii Vitæ: prima fusior secundum Acronem; altera brevior secundum Porphyryonem. Post hæc incipit poëta ipse, cujus singulis lucubrationibus subieciuntur explanationes, Acronis primo, et deinde Porphyryonis. Tam poëte carmina, quam interpretum explanationes sunt uno eodemque Romano caractere, qui idem prorsus est ac is, quo Barthol. Guldinbeckius a. 1476. *Summam S. Thomæ de articulis fidei* impressit. Græca suis locis inserta sunt; non ubique tamen. Editio splendida est, sine signaturis, numeris, custodibus, ac registro: exstatque in bibl. Casanatensi, apud S. M. de Populo, et in bibl. S. M. ad Quercum O. P. P. PP. Viterbi. Haetenus Audiff. Conf. Maitt. p. 752, et p. 766. *Deburæ* Bibl. Ducis Vallierii t. II, p. 94, qui tamen opera Horatii omnia isto libro contineri falso statuit. I, et a. e circa a. 1480, ponitur; sed haud dubie hæc ipsa h. a. est, et exemplum istud forte destitutum erat V prioribus foliis, Tuscani et Helii Parthenopei epp. cum vita Horatii complectentibus.

In fine: « In officina egregii librarii Antonii Zarotti Parmensis, impendio Alexandri Minutiani Appuli De Sancto Severo hæc opera Mediolani impressa sunt. Anno a salutifero Virginis partu sexto et octogesimo supra millesimum et quadringentesimum. Quinto Idus Martias. Johannis Galeatii Mariæ SF. Vic. Sex. Med. Ducis inclyti Regnum felici gubernante auspicio Lodovico Maria SF. Vic. invictiss. ac sapientiss. Principe, cujus singulari prudentia ocio ac festa pæce fere omnis fruitur italia. » In epistola ad Magnificum Virum Bortholomæum Chalcum, quam operi præfixit, magnifice jactat Alex. Minutianus, se Horatii libros studiosissime recognovisse, et ad manum habuisse unicum exemplar, idque, temporum injuria exesum; tum lubentissime id oneris suscepisse, veritum, ne, si id penitus detrectasset, plurimum de majestate Oratiana tolleretur, ob temerarium et veluti sacrilegum cujusdam conatum, qui recentissimas in Flaccum interpretationes edidisset. Conagium hunc esse,

quem Minutianus tangat, opinabatur Sax. p. 581, satis probabiliter. Scilicet, recentissimæ interpretationes sunt Acronis et Porphyriionis a Conago adjectæ. Landinum tamen sugillari credebat Gesn. præf. Hor. Cæterum textum fere edd. Venett. deprehendimus. Omnino Minutiani opera in Porphyrione, cujus antiquissimum Codicem nactus erat, expoliendo videtur collocata fuisse.

Friburg. quam jure inter principes referas, quandoquidem non ex Italicis exemplaribus, sed e Codd. in Germania custoditis, iisque satis probis eam ductam esse apparet. *Epigrammata Jac. Locheri* sequitur ejusdem *Epistola ad Carolum Marchionem Badensem*, in qua in Germanorum laudes bellicas pariter ac togatas exspatiatur; hanc excipiunt *Vita Horatii compendiosa*, duo ejusdem *Carmina* (quamquam laurcato poeta parum digna), *Tabula metrorum et directoria vocum et sententiarum*. Separatim hos Horatii libellos a Thannero excusos evulgatosque fuisse testatur subscriptio cuique subjecta. Quum autem mox, ut justum volumen explerent, conjungerentur, turbatum inde mirum in modum est a bibliographis, alios ex his complectentibus (ut *Maitt.* p. 662, Art. poet. Epod. et Carm. sæc.) alios seorsim commemorantibus. Monendum hoc, ne diversæ iteratæque istos impressionis habeas. Idem dicendum de sqq. Martini Herbip. edd.

Sequitur plerumque hæc editio Aldinas anteriores, quamquam novam recensionem fecisse videri vult Franc. Asulanus, qui in epist. ad Jo. Pinum ita de suo labore, ei impenso: poemata ad exactiorem castigationem revocavi-

mus; præter alios enim, quos plurimos adhibuimus, Andree etiam Naugerii judicio non parum multis in locis adjuti, ita mendis omnibus sublati integra reddidimus, ut vere profiteri possimus, non minus nostro labore tanto auctori pristinam dignitatem esse restitutam, quam studiosissimo cuique lectori satisfactum in iis, quæ vel obscura, vel ambigua ab omnibus in medio relinquebantur. Hæc ille. Emendatior utique est cæteris Aldinis, et manifesta vitia (ut I, 11, 2, *Leuconos* pro *Leucothea*) passim sublata videas.

ÆTAS QUARTA,

LITIGIOSA, TANDEM ECLECTICA.

Hæc ætas habet antesignanos Jac. Talbotium, et Guill. Baxterum, Anglos; quos secutus est Rich. Bentleius, illis maior, sed emendator ultra quam decet audax, cum Petro Burmanno, Batavo; superatus tamen fere acerbius ab Alex. Cuningamio, Anglo. Princeps post illos incessit Natalis Steph. Sanadon, S. J. Promereri dein de Horatio conati sunt Georg. Wade et Jo. Jones, Angli; J. M. Gesnerus, Baxteri quidem assecla, sed is, ut inter eum et Bentleium medius sit: novissime Lud. Poinsonet de Sivry, Gallus, et qui tandem omnium criticis curis usus præ cæteris, quamvis copiosius justo illustrare Horatium aggressus est, Christ. Dav. Jani.

1699. *Q. Horatii Flacci Opera*, ad optimorum exemplarium fidem recensita; accesserunt variæ lectiones, quæ in libris Mss. et eruditorum commentariis notatu digniores occurrunt. Opera et studio Jac. Talbot. Cantabrigiæ, typis academicis, 4.

Horatii Flacci Eclogæ*, una cum scholiis perpetuis, tam veteribus quam novis; præcipue vero antiquorum grammaticorum, Helenii Aeronis, Pomponiique Porphyryonis; quorum quæ exstant reliquæ fœdis interpolationibus purgatæ, nunc primum fere integræ repuntur. Adiecit etiam, ubi visum est, et sua, textumque ipsum plurimis locis, vel corruptum, vel turbatum, restituit Willielmus Baxter. Londini, 8.

Aversis plane Charisin Baxterum Horatio explicando adsiluisse vel eos animadvertisse arbitror, qui vel leviter ejus Notas degustarint, dilogiis s. allegoriis ac putida quadam doctrina, in rimandis maxime etymologiis spectata, refertas. Neque accuratior ejus opera fuit in Scholl. purgandis, eorumque delectu faciundo. In crisi quoque parum *ὀφύς* deprehendas, quam utique sine librorum adjumento institutam fuisse apparet.

Accessit ad adornandam hanc Horatii editionem Bentleius tam Codd. præstantioribus, quam ingenio, quo pollebat *επιτελεστέω*, reconditorisque eruditionis copia instructissimus, atque hanc spartam ita ornavit, ut vere Horatii sospitator dici haberique mereatur. Quamquam eum subinde ultra terminum, quem exquisitior sensus poeticus præfigeret, vagatum deprehendas. Is certe tam ex Codd. MSS. quam ex suspicione, amplius 800 locis Horatium vel emendavit, vel exagitavit. Hinc ipse nactus est adversarios partim acerbos, partim bene armatos. Primus quidem fuit anonymus, cujus exstat *Aristarchus ampullans in curis Horatii*, auctore Philargyrio Cantabr. Londin. 1712, 8. Alterius ejusque ludimagistri Nottinghamiensis Rich. Johnsoni est *Aristarchus Antibentleianus*. Nottingham. 1717, 8. Isquidem acerbior fuit quam valens doctrina. Alex. dein Cuningamius vindex exstitit Horatii; neque non ingenio et doctrina, qua pollebat, his qui in Horatio sapiunt, Bentleium superasse videtur, nonnunquam paulo superbius in superbum egit. Præter hos etiam Lamb. Bos in spec. animadv. ad scriptt. Lat. Franeq. 1714, 8, nonnulla loca Horat. adversus Bentleium vindicat illuminatque.

1721. *Q. Horatii Flacci Poemata*, ex antiquis Codd. et certis Observationibus emendavit, variasque scriptorum et impressorum Lectiones adjecit Alex. Cuningamius. Hagæ Com. apud Th. Janson, 8.

Alex. Cuningamii Animadversiones in Rich. Bentleii notas et emendationes ad Q. H. Fl. 1b. eod.

Eodem a. uterque hic liber recusus est Londini apud Vaillant et Prevost, ubi obs. crit. subjectæ textui leguntur. Cuningamius editionem suam quadringentis plus locis emendatiorem Bentleiana adornasse se affirmat; certas quas dicit observat. imprimis ex Cod. Blandinio antiquissimo Cruquii et Pierio Valeriano sibi informavit. Quanvis autem odio Bentleii ad superbiam vertisse videatur, emendationes tamen ejus censentur doctissimæ esse et ingeniosissimæ, sæpe, ut Cl. Jani existimat, si ad leges criticæ excutiantur, pro unice veris lectionibus habendæ. Etiam ejus audacia videtur melior, quam aliorum indocta modestia; unde ipsum unum omnium, qui in Horatium scripserunt, criticorum principem, ipsique Bentleio antefendum pronuntiare haud dubitat Jani.

Princeps fere Sanadonus, qui artificium poetæ et virtutes poeticas cum sensu elegantie exposuit. Quamquam est, ubi ultra lineas processit : sed utamur Cl. Jani verbis :

« Sanadonus, ait, in textu Horatii constituendo quum
« Lambinum, Cruquium, Torrentium aliosque, qui Codd.
« Mss. usi sunt, consuluit, tum multas Bentleii emendd.
« sibi vindicavit; sed omnium maxime Cuningamium se-
« cutus est, etiam ubi is ultra lineas processit. Attamen et
« multæ emendd. ipsi propriæ sunt. » Omisit vero non-
nulla carmina, et interdum quosdam versus rescuit,
castitati consulturus. Interpretatio gallica omnium est
princeps. In notis non solum loca obscuriora egregia
doctrina illustravit, sed et artificium virtutesque poeticas
alto judicio et sensu elegantie explicavit; carmina tamen
ad annos suos revocando sæpe forsan aberravit, ordinem
certe vulgatum pervertit : nimis etiam subtiliter interdum
et delicate venustates Horatii resecat : denique pro ingenii
sui luxuria, nimis allegoriæ deditus etiam ea, quæ ex græco
exemplo ducta sunt, ad rem romanam, Augusti familiam
et tempora refert. De his edd. pluribus exposuit clar.
